

CROSSTOWN PARKWAY EXTENSION DESIGN/BUILD PROJECT

from Manth Lane to U.S. 1
City of Port St. Lucie

YOU'RE INVITED

To a Design Open House

Wednesday, January 13, 2016
5 p.m. – 7 p.m.

**City of Port St. Lucie
Community Center**

**2195 SE Airoso Boulevard
Port St. Lucie, Florida**

The City of Port St. Lucie and our project partners invite you to a design open house for the Crosstown Parkway Extension Design/Build Project, connecting the existing Crosstown Parkway from Manth Lane to U.S. 1 in the City of Port St. Lucie.

The meeting will follow an informal open house format. Maps, drawings and other information will be on display at the meeting. There will be no formal presentation, however, the City and members of the Project team will be available throughout the meeting to discuss the project and answer questions. The meeting will provide the public an opportunity to review the current design, ask questions, and/or submit comments. Attendees will also have the opportunity to vote on some of the aesthetic treatments for the project.

For more information on the project, visit our website at www.crosstownextension.com.

For questions, please contact the Crosstown Parkway Extension Project hotline at 772-871-5176.

CROSTOWN PARKWAY EXTENSION DESIGN/BUILD PROJECT

from Manth Lane to U.S. 1
City of Port St. Lucie

The Crosstown Parkway Extension Design/Build Project involves providing a new bridge crossing over the North Fork of the St. Lucie River in the City of Port St. Lucie, connecting the existing Crosstown Parkway from Manth Lane to U.S. 1. The project extends along the existing West Virginia Drive, crossing over the North Fork of the St. Lucie River and connecting into U.S. 1 at Village Green Drive.

The project is approximately two miles with the bridge being approximately 4,000 feet. The six lane divided highway and bridge will serve as a multi-modal transportation alternative to include accommodations for automobile, bicycle, pedestrian and public transit. The project will help alleviate traffic congestion, providing relief to the two existing crossings of the North Fork of the St. Lucie River at Port St. Lucie Boulevard and Prima Vista Boulevard. The project will improve public safety, emergency response times, help reduce travel times and enhance mobility. Construction for the project is estimated to begin Mid 2016. The estimated design and construction costs for the project are \$86.9 million.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Beth Zsoka, Public Information Officer, Crosstown Parkway Extension Project, at 772-871-5176 at least seven days prior to the meeting.
