## **REGULAR BOARD MEETING**

Wednesday, June 3, 2015, 2:00 pm

#### **AGENDA**

- 1. Call to Order
- 2. Pledge of Allegiance
- **Roll Call** 3.
- 4. **Approval of Minutes** 
  - April 8, 2015 Regular Board Meeting
- 5. **Comments from the Public**
- **Comments from Advisory Committee Members (TAC/CAC/BPAC)** 6.
- 7. **Approval of Agenda**
- 8. **Consent Agenda** 
  - Transportation Disadvantaged (TD) Planning Grant Application: 8a. Adoption of Resolution 15-01 authorizing the execution of a TD Planning Grant Application for FY 2015/16.

**Action:** Adopt or do not adopt.

8b. Federal Transit Administration (FTA) Metropolitan Planning Grant **Application:** Adoption of Resolution 15-02 authorizing the execution of a FTA Metropolitan Planning Grant Application for FY 2015/16.

Action: Adopt or do not adopt.

- 9. **Action Items** 
  - Amendment to the FY 2014/15 FY 2018/19 Transportation 9a. Improvement Program (TIP): Adoption of an amendment to the FY 2014/15 - FY 2018/19 TIP to delete the Turnpike Heavy Truck Turnaround Project from the TIP.

Action: Adopt the TIP amendment, adopt with conditions, or do not adopt.

9b. Amendment to the FY 2014/15 - FY 2018/19 TIP: Adoption of an amendment to the FY 2014/15 - FY 2018/19 TIP to advance the construction of the Indrio Road project to FY 2015/16 in the TIP.

**Action:** Adopt the TIP amendment, adopt with conditions, or do not adopt.

**9c. Draft FY 2015/16 – FY 2019/20 TIP:** Review and adoption of the draft FY 2015/16 – FY 2019/20 TIP for the St. Lucie TPO.

**Action:** Adopt the draft TIP, adopt with conditions, or do not adopt.

9d. Go2040 Long Range Transportation Plan (Go2040 LRTP) Goals, Objectives, and Performance Measures (GOPMs): Review and adoption of the draft GOPMs for the Go2040 LRTP.

**Action:** Adopt the draft GOPMs, adopt with conditions, or do not adopt.

**9e.** Transportation Regional Incentive Program (TRIP) Grant Applications for **2015**: Review and endorsement of the TRIP grant applications for the 2015 grant cycle.

**Action:** Endorse the TRIP grant applications for the 2015 grant cycle, endorse with conditions, or do not endorse.

**9f. Transportation for America:** A presentation will be provided on the public agency membership program of Transportation for America.

**Action:** Approve the TPO becoming a public agency member of Transportation for America, approve with conditions, or do not approve.

- 10. FDOT Comments
- 11. Recommendations/Comments by Members
- 12. TPO Staff Comments
- **13. Next Meeting:** The next St. Lucie TPO Board Meeting is a regular meeting scheduled for 2:00 pm on Wednesday, August 5, 2015.
- 14. Adjourn

#### **NOTICES**

The St. Lucie TPO satisfies the requirements of various nondiscrimination laws and regulations including Title VI of the Civil Rights Act of 1964. Public participation is welcome without regard to race, color, national origin, age, sex, religion, disability, income, or family status. Persons wishing to express their concerns about nondiscrimination should contact Marceia Lathou, the Title VI/ADA Coordinator of the St. Lucie TPO, at 772-462-1593 or via email at lathoum@stlucieco.org.

Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Marceia Lathou, 772-462-1593, at least five days prior to the meeting. Persons who are hearing or speech impaired may use the Florida Relay System by dialing 711.

Items not included on the agenda may also be heard in consideration of the best interests of the public's health, safety, welfare, and as necessary to protect every person's right of access. If any person decides to appeal any decision made by the St. Lucie TPO with respect to any matter considered at this meeting, that person shall need a record of the proceedings, and for such a purpose, that person may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is to be based.

Kreyol Ayisyen: Si ou ta rinmin recevoua information sa en crèole si I bous plait rèlè 772-462-1593.

Español: Si usted desea recibir esta información en español, por favor llame al 772-462-1593.

#### **REGULAR BOARD MEETING**

**DATE:** Wednesday, April 8, 2015

**TIME:** 2:00 PM

**LOCATION:** St. Lucie TPO

Coco Vista Centre

466 SW Port St. Lucie Boulevard, Suite 111

Port St. Lucie, Florida

## **MINUTES**

## 1. Call to Order

Chairman Drummond called the April 8, 2015 regular meeting of the St. Lucie Transportation Planning Organization (TPO) Board to order at 2:07 pm.

## 2. Pledge of Allegiance

Chairman Drummond led the Pledge of Allegiance.

#### 3. Roll Call

The roll was called and a quorum was confirmed with 10 members present.

## **Members present:**

Darrell Drummond, Chairman Kathryn Hensley, Vice Chair Councilwoman Michele Berger Commissioner Frannie Hutchinson Commissioner Kim Johnson Mayor Linda Hudson Commissioner Paula Lewis Councilwoman Shannon Martin Commissioner Tod Mowery Mayor Gregory Oravec

## Representing:

## 4. Approval of Minutes

\* February 4, 2015 Regular Board Meeting

- \* **MOTION MOVED** by Mayor Hudson to approve the minutes of the Regular TPO Board meeting held on February 4, 2015.
- \*\* SECONDED by Councilwoman Berger Carried UNANIMOUSLY
- 5. Comments from the Public None
- 6. Comments from Advisory Committee Members (TAC/CAC/BPAC)-None
- 7. Approval of Agenda
- \* **MOTION MOVED** by Councilwoman Berger to approve the agenda as presented.
- \*\* SECONDED by Mayor Hudson Carried UNANIMOUSLY
- 8. Consent Agenda

## 8a. Appointments to the St. Lucie TPO Advisory Committees

Mr. Buchwald recommended that Mr. William Brooks be appointed as a Minority Representative to the Citizens Advisory Committee. Mr. Brooks has been serving on that committee as an Alternate. Ms. Lisa Fasnacht was recommended to be appointed as a Resident Bicycling Representative to the Bicycle-Pedestrian Advisory Committee. Advisory Committee appointments were recommended to fill vacancies.

April 8, 2015 Page 3 of 12

\* **MOTION – MOVED** by Mayor Hudson to approve the appointments to the St. Lucie TPO Advisory Committees.

## \*\* SECONDED by Councilwoman Berger Carried UNANIMOUSLY

Mayor Hudson commented on the appointment of Ms. Fasnacht to the Bicycle-Pedestrian Advisory Committee, and was familiar with her hard work.

## 9. Action Items

# 9a. 2040 Long Range Transportation Plan (2040 LRTP) Growth Projections

Mr. Buchwald presented the 2040 Long Range Transportation Plan Growth Projections and advised that Wally Blain representing Tindale-Oliver was present to answer any questions. At last month's meeting the Board reviewed the 2040 LRTP and postponed acceptance of the projections until Board members could discuss the growth projections with their staff.

The population totals are derived from the official state population projections developed by the University of Florida, Bureau of Economic and Business Research (BEBR) for the year 2040. After population control totals are received from BEBR, employment control totals are developed that are proportional with the population control totals. Future estimates were displayed on two maps showing density changes from 2010 through 2040 for future population and employment growth.

The largest population growth and the largest employment growth areas were displayed showing service employment remaining projected as the largest component of employment growth. (Color Coded maps were provided).

- \* **MOTION MOVED** by Councilwoman Berger to accept the 2040 LRTP growth projections.
- \*\* **SECONDED** by Councilwoman Martin **Carried UNANIMOUSLY**.

# 9b. Transportation Alternatives Program (TAP) Grant Applications for 2015

Mr. Buchwald reviewed authorized funding available provided by TAP. For the 2015 TAP grant cycle the amount for St. Lucie TPO is \$654,152

April 8, 2015 Page 4 of 12

to be programmed by FDOT in FY 2018/19. The TPO Board prioritizes the TAP grant applications for submittal to FDOT and the TPO Advisory Committees recommend prioritizations of the applications to assist the TPO Board. TAP projects originate from the 2014/15 TA Priority Project List attached. Two TAP grant applications were submitted for consideration for the 2015 TAP grant cycle.

St. Lucie County submitted the Oleander Avenue Sidewalk Improvements Project, (ranked 8<sup>th)</sup> and the City of Port St. Lucie submitted the Paar Drive Sidewalk Project, (ranked 8<sup>th)</sup>. Both projects are included in the TPO's TA Priority Project List and their ranking based on the TA Project Prioritization Methodology.

The CAC and TAC were split with regard to their recommendations for prioritization of the projects at their meetings on March 10th. The CAC recommended prioritizing the Paar Drive Sidewalk Project for TAP funding over the Oleander Avenue Sidewalk Improvements Project. The TAC and the BPAC recommended the Oleander Avenue project, prioritized for TAP funding over the Paar Drive Sidewalk project.

Based on the Paar Drive Sidewalk Project being ranked higher than the Oleander Avenue Sidewalk Improvements Project in the TPO's TA Priority List, the staff recommendation was that the TAP grant application for 2015 for the Paar Drive Sidewalk Project be ranked number one and prioritized for funding, and the Oleander Avenue Sidewalk Improvements project receive the remainder of the TAP funding for 2015 and any remaining funding allocated by FDOT District 4.

Representatives from the City and the County were present to answer any questions from the Board. There were no questions or comments.

- \* MOTION MOVED by Councilwoman Martin to accept the recommendation that the Paar Drive Sidewalk Project be ranked higher than the Oleander Avenue Sidewalk Improvements Project and funded with the TAP grant for 2015 and that the Oleander Avenue Sidewalk Improvements Project receive the remainder of the TAP funding for 2015 and any excess TAP funding allocated by FDOT District 4.
- \*\* SECONDED by Councilwoman Berger Carried UNANIMOUSLY

## 9c. St. Lucie Freight Network (SLFN)

Mr. Buchwald addressed the recently enacted Federal and State legislation and policies, and the response of USDOT and FDOT in

April 8, 2015 Page 5 of 12

emphasizing planning for freight movement and investing in freight infrastructure. The TPO's UPWP Task 3.6 is dedicated to freight planning.

Based on review of data there is an active freight network within the St. Lucie TPO area. The major roads that connect regional activity centers, and freight transported along major corridors were reviewed.

The objectives of designating a SLFN are to reflect the active freight networks, identify corridors most suitable for movement of freight, discourage freight movement along corridors not suited for freight movement, and identify locations most appropriate for investments in freight projects.

The draft SLFN was developed based on the USDOT Primary Freight Network Map, the FDOT Regional Trucking Corridors Map, the active freight network and corridor characteristics.

At their March meetings the TPO Advisory Committees recommended adoption of the SLFN with conditions:

- The City of Fort Pierce recommended that Avenue "A", Indian River Drive and Orange Avenue east of 25<sup>th</sup> St., not be included in the SLFN.
- The City of Port St. Lucie recommended that Peacock Boulevard, Cashmere Boulevard (north of St. Lucie West Boulevard), Airoso Boulevard (south of Prima Vista) Village Parkway (north of Tradition Parkway) and Veteran's Memorial Parkway not be included in the SLFN.
- St. Lucie County recommended that roads included in St. Lucie County Code Sec. 1-20-3 "Truck weight limits established for certain roads" be noted, and Selvitz Road (south of Glades Cut-Off Road) not be included in the SLFN.

Based on comments from the TPO advisory committees and the draft SLFN objective of designating a freight network, the Board was asked to approve the draft SLFN for designation.

Chairman Drummond asked if this was an inventory of the network or a future long range plan for freight identified.

Mr. Buchwald said it could be an inventory if it is not opposed by local jurisdictions and policies for freight movement, as well as looking for existing freight routes that are congested that could be identified to improve freight infrastructure for funding.

Chairman Drummond asked if some additional study or report would be

April 8, 2015 Page 6 of 12

recommended in conjunction with the development of the Port in Fort Pierce and how the movement of freight around the Port and Downtown would occur.

Mr. Buchwald indicated that would be easy to apply to the SLFN and when changes are necessary to efficiently move freight through the network.

Chairman Drummond addressed the changes to the Map recommended by the City of Fort Pierce.

Mr. Buchwald explained that some existing freight routes are not suitable for freight movement and the amount of freight may be reduced or re-routed to routes that are more conducive.

Commissioner Hutchinson asked if we have information on where the trucks that are re-routed would move to, and what network they would be using.

Mr. Buchwald indicated they would use one of the other routes depicted on the screen. It would be up to the local jurisdictions if they have signage adopted relating to freight into their Code, and enforcement support of local law agencies. The SLFN is just the beginning and there will be funding available for the freight effort. He asked what the Board wanted, where freight will be moving in their community, and how it can best be moved?

Councilwoman Martin asked about the time frame of the approved SLFN document, and how changes to divert freight would work in the future.

Mr. Buchwald explained this was the Board's SLFN, and it could be revised, changed and/or adopted as often as they liked.

Commissioner Hutchinson questioned the definition of "freight" and asked if there was one, and cautioned about what it might encompass. She noted the City of Fort Pierce uses big vehicles for sand erosion, other uses and emergencies, and hoped those vehicles would not be eliminated.

Mr. Buchwald agreed that the broad definition of freight was trucks, and local jurisdictions would have the ability to exempt or include language for those vehicles to be incorporated for special projects.

Commissioner Johnson had a concern with taking Avenue "A" off east at 25<sup>th</sup> St. If freight was re-routed to Virginia Avenue, the problem would

April 8, 2015 Page 7 of 12

be worse, as it is a corridor to I-95, and there has to be a better rerouting than that. He suggested Indrio Road as a better route for freight to US #1, and Downtown Fort Pierce, and recommended signage of that route to alert trucks.

Vice Chair Hensley said that Virginia Ave. was made into six lanes for the freight corridor.

Commissioner Lewis questioned whether we were looking to do long term traffic with no destination, short term through traffic with a destination, or truck traffic with weight limits.

Mr. Buchwald said that the next step for the jurisdictions would be asking where they want the traffic to go. The SLFN is where that identification begins.

Mayor Oravec commented that with no time frame on approving a SLFN, it could be incorporated in the LRTP for further review and examination. He asked for more time for policy discussion, and to give the advisory committees direction on policy. Freight represents goods, big money, and jobs, and is something that we want. He asked to be included as a part of a strategic conversation regarding the growth of our community with Council members and the business community, and approach it holistically and strategically. He would like to discuss how we can connect the airport and the Port of Fort Pierce to I-95, the Turnpike and the highway network with Mayor Hudson and her Commission. There is plenty of expertise on the Board for discussions that haven't occurred, and an opportunity for policy discussion, debate and brainstorming before the SLFN is adopted.

Chairman Drummond said the SLFN is just a starting point SLFN that could be approved and we take into consideration the Board's comments and suggestions, direct staff to look for input from the local jurisdictions, and bring that information back for the Board to review and amendments.

Mr. Buchwald agreed the Board's input and consideration of the importance of freight movement in the County, where and how to move it more effectively, and go after funding resources was essential to the success of the SLFN.

Commissioner Mowery noted the SLFN is a draft, it doesn't need to be adopted, and agreed with taking time to pause and create dialogue and discussions with other entities, as this concerns not just freight. He noted the map volume is missing along with legends on the reference

April 8, 2015 Page 8 of 12

to color coding on one of the maps. He preferred not to take action on the draft and asked that staff work with the Economic Development Council, the County Commission and City Council to develop a joint meeting or workshop to engage public input.

Commissioner Johnson agreed that potential businesses and those who want to be part of this process should be included in the discussions.

It was the consensus of the Board that they wanted to be part of the discussions with other groups, and Commissioner Johnson recommended a workshop for further Board discussion.

\* **MOTION – MOVED** by Councilwoman Berger take no action at this time and not recommend approval of the draft SLFN designation.

## \*\* **SECONDED** by Councilwoman Martin

Councilwoman Martin suggested having workshops at their own locations with their staff, and bringing the recommendations back for discussion.

Mr. Buchwald suggested the Board consider having a concurrent workshop with the St. Lucie Freight Network and the Long Range Transportation Plan development.

The Board agreed this is a good place to start, local staffs will be advised that we want resources at the staff level for review and providing input.

Chairman Drummond confirmed the motion on the floor was to postpone adopting the SLFN and allow individual staffs to critique it, bring it back for further policy level discussion and discuss what will be adopted.

Mayor Hudson added at this time we don't know how the Port and Airport are going to be developed or what's going to happen with passenger rail, and all of that could affect our individual positions.

Mr. Buchwald said this was created and started with our LRTP. It did not have a freight network in it, and funding was authorized by the State and Federal Government with emphasis on freight.

Further discussion continued on the importance of the Freight Network, the Port and how it gets developed, different views representing various constituencies representing the County, and creating a network that will benefit everyone.

April 8, 2015 Page 9 of 12

## \*\*\* The MOTION was Called, SECONDED and carried UNANIMOUSLY.

Commissioner Mowery requested an Out-of-Order agenda discussion on Agenda Item 9b., on the selection of the Paar Drive Sidewalk Project and the Oleander Avenue Sidewalk Improvement projects and asked for clarification on the funding. He commented on financial contributions that could be decreased.

Chairman Drummond explained the vote was taken prior to his arrival. Mr. Buchwald explained the process by which the Paar Drive Sidewalk Project was selected over the Oleander Avenue Sidewalk Improvement Project, and how the funding will be allocated and distributed. Discussion continued on available funding, county-wide funding and local jurisdiction match requirements.

No action was taken.

## 10. Discussion Items

## 10a. Avenue J Pedestrian Bridge

Mr. Buchwald explained that at the February Board meeting the Avenue J Pedestrian Bridge was discussed and identified as a safety issue. Neighbors complained of criminal activity using the bridge as an escape route, and police vehicles were unable to pursue criminals across the bridge.

The bridge was constructed by the County in 2008 at a cost of \$200,000 and fully reimbursed by the State, with the intent to increase pedestrian access to school and park facilities. Unsafe wooden pallets were used to cross the canal before the bridge was constructed, and people would cross it with or without a bridge.

FDOT District 4 indicated the bridge is a law enforcement issue, not a transportation issue and explained the pedestrian bridge has not yet reached a useful life, (20 yrs.) and federal funding would have to be returned if the bridge were removed.

Based on discussions regarding the bridge with the TPO Advisory Committees, removal of the bridge would aid law enforcement, but would eliminate a neighborhood connection for access to the school, the park and Boys and Girls Club activities, isolate the neighborhood, and contradict livability and sustainability planning. It was recommended that access to the neighborhood be increased by expanding the Avenue

April 8, 2015 Page 10 of 12

A Pedestrian Bridge to allow both vehicles and pedestrians to cross the canal at that location versus removing it.

## **Summary of Comments:**

If a new road is put in, where does it rank for funding on the LRTP list, what projects would get bumped, and what type of timeframe do we expect? Does law enforcement allow us to put up a gate or block it.

The issue of placing gates, improvements or restrictions on the bridge had not been addressed and would be an issue.

Before we restrict access to an entire community, law enforcement strategies and input from the community must be taken into account before it comes back to this Board.

Avenue "M" as it dead-ends as an access point to get across the canal might be a choice if further construction is recommended to stop criminal activity, and funding sources need to be explored.

A Boys & Girls Club sub-station satellite office is located there, benefiting access for the neighborhood and law officers can observe those involved in criminal activity.

Commissioner Mowery suggested that we move on the first portion of staff's recommendation not to remove the bridge, and add comments on law enforcement strategy, deal with the financial feasibility, and determine the costs of combining widening or construction vs. recommendation of expansion. We should have this information in place before making a recommendation.

Two law enforcement agencies from two jurisdictions are involved and collaboration with both on their strategy is needed. The bridge is essential for the neighborhood, families and children, to access the school, park and activities.

Chairman Drummond agreed on getting input from both Fort Pierce and the SLC Sheriff's Office, pursue where funding might be available, look at signalization, assess the costs of widening and construction, and have staff look at what's available to address this issue.

Mr. Buchwald advised the Board the UPWP has included within it, Task 3.7, identification for mitigation of a safety and security issue that provides for a feasibility study that can be conducted. The scope of the study would include and not be limited to:

April 8, 2015 Page 11 of 12

Not removing the bridge; discussion with both St. Lucie County and Fort Pierce law enforcement agencies on their strategy to see what can be done; costs for expansions and improvements; benefits to improving the neighborhood and installing cameras in the area, pursuing expansion of Avenue "M", and conducting a neighborhood workshop for input from the community. The Board agreed this was to be a neighborhood workshop.

Discussion continued on this item being partially a law enforcement issue and also a neighborhood - community accessibility, livability sustainability planning issue.

\* MOTION - MADE by Councilwoman Berger to accept staff's recommendation not to remove the bridge.

## \*\* **SECONDED** by Commissioner Johnson Carried **UNANIMOUSLY**

Further discussion ensued on continuing discussions with law enforcement and if they indicate they need additional assistance, then it comes back and the Board will take it up again. The date, time and place for a neighborhood community meeting workshop was discussed.

#### 11. FDOT Comments - None

## 12. Recommendations/Comments by Members

Commissioner Hutchinson commented on the recent administration changes at FDOT District 4, and asked if they were coming to visit us. Mr. Buchwald advised the new FDOT Secretary who replaced Jim Wolfe will be here to present the draft Tentative Work Program for the October Board meeting, and could certainly be invited and welcomed prior to that meeting.

Mayor Oravec thanked the Board, welcomed their diverse opinions and debate. The meeting was about much more than transportation, it was about population projections, the waterways, and freight as the future of the county for economic development, access to the Port and the gateway to South and Central Florida, which is a big part of the future of our County. The Bridge at Avenue "J" opened up discussion regarding many challenges.

#### 13. TPO Staff

April 8, 2015 Page 12 of 12

Mr. Buchwald commented on the recent MPOAC meeting held in Tallahassee, and at that meeting the new FDOT Secretary was introduced, who looked forward to his next four years. The Board approved negotiations of a contract for an Executive Director, Jeff Kramer, who is replacing Howard Glassman. The Board also approved an allocation of \$150,000 for strategic planning to help to determine what the MPOs want from MPOAC. They heard the MPOs want a greater role at the District level as well in Tallahassee to develop relationships and assist us. We are going through changes that we hope will be best for the organization.

Chairman Drummond followed-up on the MPOAC meeting and announced that the MPOAC provided \$16,800 as additional planning funds that can be used this year or next fiscal year.

Chairman Drummond congratulated Mr. Buchwald who was re-elected as Chair of the MPOAC staff directors committee, and also re-elected to serve on the policy committee which is a nationwide MPO committee.

**14. Next Meeting:** The next St. Lucie TPO Board Meeting is a regular meeting scheduled for 2:00 pm on Wednesday, June 3, 2015.

## 15. Adjourn

| Respectfully submitted:                  | Approved by:                                 |

The meeting was adjourned at 3:30 pm.

## **AGENDA ITEM SUMMARY**

**Board/Committee:** St. Lucie TPO Board

Meeting Date: June 3, 2015

Item Number: 8a

Item Title: Transportation Disadvantaged (TD) Planning

Grant Application

**Item Origination:** Unified Planning Work Program (UPWP)

**UPWP Reference:** Task 3.8 – Transportation Disadvantaged

Program

**Requested Action:** Adopt or do not adopt

Staff Recommendation: It is recommended that the Board adopt

Resolution No. 15-01 to authorize the TPO Executive Director to apply for a FY 2015/16 TD Planning Grant and execute an agreement for

the Grant.

## **Attachments**

- Staff Report
- Excerpt from UPWP
- Resolution No. 15-01

#### **MEMORANDUM**

TO: St. Lucie TPO Board

**THROUGH:** Peter Buchwald

**Executive Director** 

**FROM:** Marceia Lathou

Transit Program Manager

**DATE:** May 28, 2015

SUBJECT: Transportation Disadvantaged (TD) Planning Grant

**Application** 

## **BACKGROUND**

The Florida Legislature created Florida's Transportation Disadvantaged (TD) Program in 1979 to foster the coordination of transportation services for the state's TD population. The TD population consists of individuals whose physical or mental disability, income status, or age make them unable to transport themselves or to purchase transportation. The TD Program is administered at the state level by the Florida Commission for the Transportation Disadvantaged (FCTD).

In St. Lucie County, the TD Program is administered at the local level by the St. Lucie County Community Services Department under the oversight of the Local Coordinating Board for the Transportation Disadvantaged (LCB). The St. Lucie TPO provides planning-related staff support and resources to the Community Services Department and the LCB to assist in the identification of and response to the public transportation needs in the St. Lucie service area.

The TD Program and the support and resources provided by the TPO for the TD Program are further described in the attached excerpt from the TPO's FY 2014/15 – FY 2015/16 Unified Planning Work Program (UPWP).

May 28, 2015 Page 2 of 2

## **ANALYSIS**

Attached is St. Lucie TPO Resolution No. 15-01 which authorizes the application for and the execution by the TPO Executive Director of a TD planning grant agreement for FY 2015/16. The grant is in the approximate amount of \$24,900 and is 100-percent state funded. The grant funds are used to perform planning-related work tasks for the TD program, as per Florida Statutes and as described in the UPWP excerpt.

## **RECOMMENDATION**

It is recommended that the Board adopt Resolution No. 15-01 to authorize the TPO Executive Director to apply for a FY 2015/16 TD Planning Grant and execute an agreement for the Grant.

# Task 3.8 Transportation Disadvantaged (TD) Program and Ladders of Opportunity

## Objective

To provide coordination and planning services for the St. Lucie County TD Program in accordance with Chapter 427 FS, Rule 41-2 FAC, and the Americans with Disabilities Act (ADA) which includes the identification of transportation connectivity gaps in access to essential services.

#### **Previous Work**

In accordance with State requirements, the St. Lucie TPO is the Designated Official Planning Agency (DOPA) for the TD program in St. Lucie County. In that capacity, the TPO appointed a Local Coordinating Board (LCB), prepared a Transportation Disadvantaged Service Plan (TDSP)/Coordinated Plan, developed operating policies, prepared grant applications, provided administrative services to the LCB, and provided technical assistance to the Community Transportation Coordinator (CTC). TPO staff also managed the process of selecting a CTC, performed annual CTC evaluations, and assisted in the development of the TDSP annual updates.

In Florida, the TDSP complies with applicable FCTD regulations and FTA regulations for a Coordinated Public Transit-Human Services Transportation Plan. These plans are required for eligibility for certain grant programs.

The TPO and the TD Program incorporated Environmental Justice into its mission by identifying and addressing, as appropriate, the effects of programs, policies, and activities on minority and low-income populations. In addition, the TPO's Environmental Justice initiatives continually strived to involve the potentially affected public and to develop partnerships with and enhance the participation by traditionally underserved communities and individuals. In addition to minority and low-income populations, the traditionally underserved include seniors, persons with disabilities, and transit dependent and non-driving individuals.

#### Methodology

TPO staff will annually evaluate and assist the CTC in its role of providing safe, coordinated TD services to the elderly, disabled, veterans, and the economically disadvantaged citizens in St. Lucie County. TPO staff will assist the CTC in the development of the minor updates to the TDSP/Coordinated Plan.

TPO staff will also provide administrative services to the LCB. This will include preparation of minutes, agendas, grant applications, progress reports, and other products. Staff will also assess legislatively mandated changes to the state TD program and undertake TD-related activities as necessary to comply with state legislation. Additional activities will include assessing the areas where demandresponse services are needed but are not within the local provider service area. Staff will assist in finding alternatives to accommodate those needs.

The TD program is coordinated with other public transit planning and services, including veteran services, through the LCB and associated work products. TPO staff will coordinate with FDOT and provide technical assistance for the transitioning of non-life sustaining riders from current demand response program services to fixed or deviated route services.

The TD Program will continue to incorporate Environmental Justice into its mission by identifying and addressing, as appropriate, the effects of programs, policies, and activities on minority and low-income populations. The TPO will continue to strive to involve the potentially affected public and to develop partnerships with and enhance the participation by the traditionally underserved.

## **Activities and End Products/Target Dates**

| TD Grant Applications                              | Annually      |
|--|---------------|
| TD Progress Reports                                | Quarterly     |
| LCB Meeting Agendas, Packets, Notices, and Minutes | Quarterly     |
| 2014 Annual CTC Evaluation                         | December 2014 |
| TDSP/Coordinated Plan Minor Update                 | December 2014 |
| 2015 Annual CTC Evaluation                         | December 2015 |
| TDSP/Coordinated Plan Major Update                 | December 2015 |

FY 2014/15

State TD Trust Fund \$24,923

FY 2015/16

State TD Trust Fund \$24,923

#### **RESOLUTION NO. 15-01**

A RESOLUTION OF THE BOARD OF THE ST. LUCIE TRANSPORTATION PLANNING ORGANIZATION, HEREINAFTER "BOARD", AUTHORIZING THE APPLICATION FOR TRANSPORTATION DISADVANTAGED (TD) FUNDS AND EXECUTION OF A TD GRANT AGREEMENT WITH THE FLORIDA COMMISSION FOR THE TRANSPORTATION DISADVANTAGED FOR FISCAL YEAR 2015/16.

**WHEREAS**, the BOARD is eligible to apply for and receive Transportation Disadvantaged funds and to undertake a transportation disadvantaged program as authorized by Section 427.0159, Florida Statutes, and Rule 41-2, Florida Administrative Code.

#### NOW, THEREFORE, BE IT RESOLVED BY THE BOARD THAT:

- 1. The BOARD has the authority to apply for TD funds and to execute a TD grant agreement.
- 2. The BOARD authorizes the TPO Executive Director to apply for TD funds and execute a TD grant agreement on behalf of the BOARD with the Florida Commission for the Transportation Disadvantaged.
- 3. The BOARD's Registered Agent in Florida is the TPO Executive Director. The Registered Agent's address is 466 SW Port St. Lucie Boulevard, Suite 111, Port St. Lucie, Florida, 34953.
- 4. The BOARD authorizes the TPO Executive Director to sign any and all agreements or contracts which are required in connection with the grant agreement.
- 5. The BOARD authorizes the TPO Executive Director to sign any and all assurances, reimbursement invoices, warranties, certifications and any other documents which may be required in connection with the application, agreement or subsequent agreements.

PASSED AND DULY ADOPTED this 3rd day of June, 2015.

#### **AGENDA ITEM SUMMARY**

**Board/Committee:** St. Lucie TPO Board

Meeting Date: June 3, 2015

Item Number: 8b

**Item Title:** Federal Transit Administration (FTA)

Metropolitan Planning Grant Application

**Item Origination:** Unified Planning Work Program (UPWP)

**UPWP Reference:** Task 3.2 – Transit Planning

**Requested Action:** Adopt or do not adopt

**Staff Recommendation:** It is recommended that the Board adopt

Resolution No. 15-02 to authorize the TPO Executive Director to apply for FY 2015/16 FTA Section 5305(d) Metropolitan Planning Grant funds and execute an agreement for the Grant.

## **Attachments**

- Staff Report
- Excerpts from UPWP
- Resolution 15-02

## **MEMORANDUM**

TO: St. Lucie TPO Board

**THROUGH:** Peter Buchwald

**Executive Director** 

**FROM:** Marceia Lathou

Transit Program Manager

**DATE:** May 28, 2015

SUBJECT: Federal Transit Administration (FTA) Metropolitan

**Planning Grant Application** 

## **BACKGROUND**

The Federal Transit Administration (FTA) Section 5305(d) grant program provides funding to support multimodal transportation planning in metropolitan areas. Metropolitan Planning Organizations (MPOs) are eligible recipients of these funds which are administered by state Departments of Transportation. The federal share is 80 percent with a required 20 percent non-federal match.

Activities funded through FTA Section 5305(d) conducted by the TPO for multimodal transportation planning are further described in the attached excerpts from the TPO's FY 2014/15 – FY 2015/16 Unified Planning Work Program (UPWP).

## **ANALYSIS**

Attached is Resolution 15-02 authorizing the TPO Executive Director to apply for and to execute grant agreements for FTA Section 5305(d) Metropolitan Transportation Planning grant funds for FY 2015/16. Based on the previous year's allocation, the FY 2015/16 grant would be approximately \$105,000. FDOT and St. Lucie County will provide a matching share for these funds. The funds will be used to perform multimodal transportation planning as per federal statutes and as described in the UPWP excerpts.

May 28, 2015 Page 2 of 2

## **RECOMMENDATION**

It is recommended that the Board adopt Resolution No. 15-02 to authorize the TPO Executive Director to apply for FTA Section 5305(d) Metropolitan Planning Grant funds and execute an agreement for the Grant.

## Task 3.1 Long Range Transportation Planning and MAP-21 Implementation

## Objective

To implement MAP-21 performance measures and develop a 2040 Long Range Transportation Plan (LRTP) and a 2040 Treasure Coast Regional LRTP which provide for the development, management, and operation of multimodal transportation systems and considers and/or integrates facilities that serve national, statewide, or regional transportation functions.

#### **Previous Work**

The 2035 RLRTP was adopted in February 2011 and was developed with a regional approach to include the area of the Port St. Lucie UZA that is served by the Martin MPO. The 2035 RLRTP was a multi-jurisdictional, multi-disciplinary effort to improve general mobility and the quality of life in the St. Lucie TPO and Martin MPO areas. More specific details of the 2035 RLRTP include the first multimodal Cost Feasible Plan, funding for livability efforts, performance measures, and goals, objectives and policies pertaining to climate adaptation.

The 2035 RLRTP was implemented into the TPO planning activities and documents such as the TIP, List of Priority Projects (LOPP), and Transit Development Plan. Performance measures were developed for the 2035 RLRTP consisting of Regional Indicators and Benchmarks for Measuring Implementation of the 2035 RLRTP Goals, Objectives, and Policies. These performance measures were monitored and reviewed on an annual basis. The TPO played primary roles in the completion of Project Development, and Environment (PD&E) Studies for projects derived from the 2035 RLRTP such as Kings Highway, Crosstown Parkway, and Port St. Lucie Boulevard. Amendments to the 2035 RLRTP were prepared and adopted for Kings Highway and the Crosstown Parkway.

The TPO assisted with implementation of the 2060 Florida Transportation Plan (2060 FTP) by appointment to and participation on the MPOAC 2060 FTP Implementation Working Group. The TPO also assisted in the development of the Seven50 Southeast Florida Prosperity Plan as further discussed in Task 5.1.

#### Methodology

The development of performance measures will continue with the implementation of MAP-21 performance measures in addition to the monitoring and reviewing of the 2035 RLRTP performance measures.

Developed consistent with FHWA expectations, the 2040 LRTP will build on the multimodal and infill development vision of the 2035 RLRTP and provide for the development, management, and operation of multimodal transportation systems. The TCRPM Version 4.0 will be utilized in the development of the 2040 LRTP which may include the collection of additional modeling data. The 2040 LRTP will incorporate livability initiatives to improve mobility and quality of

life through improvements that support multiple transportation modes. Actions will be undertaken through the 2040 LRTP development process to achieve the livability objectives and will include facilitating community participation in the decision-making process supporting well-planned mixed-use neighborhoods; prioritizing transit, pedestrian, and bicycle access that is compatible with land use; participating in the implementation of the ATMS Master Plan; incorporating climate adaption and energy use planning; integrating multimodal system performance measures from the Congestion Management Process; and providing safety, security, and accessibility for all users of the transportation system. It is anticipated for the development of the 2040 LRTP to include extensive public involvement activities through the development and implementation of a 2040 LRTP Public Involvement Plan (PIP), and the development of the 2040 Regional Long Range Transportation Plan Update (2040 RLRTP Update) will include both extensive regional coordination and public involvement activities with the two other Treasure Coast MPOs (Martin and Indian River MPOs).

The 2040 RLRTP Update content, work timing, and engagement of the public and other stakeholders will be efficiently and effectively coordinated across the scopes for the 2040 LRTPs for the three Treasure Coast T/MPOs. The 2040 RLRTP Update will be complementary to the 2040. The 2040 LRTP will focus on St. Lucie TPO issues/projects and the 2040 RLRTP Update will focus on regional issues/projects. A consultant may be utilized for 2040 St. Lucie LRTP and 2040 RLRTP Update activities which may include modeling data collection.

## **Activities and End Products/Target Dates**

## Task 3.2 Transit Planning

#### Objective

To provide technical assistance and guidance to the transit providers within the MPA and the region and to support public transportation planning and transit grant administration activities.

#### **Previous Work**

The TPO provided planning and technical support to St. Lucie County and the principal public transit operator, Community Transit. TPO staff attended quarterly Treasure Coast Transit Meetings (TCTM), a regional forum for transit agency representatives. TPO staff assisted St. Lucie County and Community Transit staff with identifying projects for potential federal grant funding. TPO staff coordinated and assisted in the designation of Park & Ride Lots at local municipal facilities. TPO staff assisted in the development of proposed bus service into Palm Beach County and in the planning for the establishment of passenger rail service.

## Methodology

Consistent with the 2035 RLRTP and the UPWP Planning Priorities, the TPO will advance planning efforts to extend passenger rail service to St. Lucie with funding and/or resource contributions. Potential impacts caused by the extension of passenger rail service will be identified. The TPO will coordinate and facilitate a Park & Ride Lot Program by building upon the results of previous planning efforts.

Other transit planning activities that will be continued include providing technical and planning assistance to the County and the Transit Operator in order to maintain the County's eligibility for the continued receipt of federal and state transit grant funds. These activities include supporting TDP Annual Progress Reports, development of a regional bus route map that includes the Indian River and Martin County transit systems, development of transit design guidelines, publishing the bus route system in Google Transit, coordinating quarterly meetings among transit providers and transit staff in the region and monitoring the performance of the transit system on an ongoing basis.

In addition, the TPO will promote intermodal planning and coordinate other transit planning activities such as Travel Demand Management (TDM) strategies with Martin and Indian River MPOs and South Florida Commuter Services. These strategies include the following:

 Launch a general marketing campaign to promote the TPO through various media channels. The message is to focus on the following themes:
 1) Know your TPO/how does the TPO affect me as a citizen 2) Get involved in the decision-making process; and 3) Promotion of specific projects.

- Promote Transportation Demand Management (TDM), including transit, carpooling, and the Emergency Ride Home program.
- Promote to new target audiences, including Seminole Tribe members and K-12 and college students by leveraging contacts developed through SFCS and the School Pool program.

Based on the outcome of the *Waterways Plan for Martin & St. Lucie Counties*, a detailed taxi waterways feasibility study may be conducted using consultant assistance. Coordination with specialized transportation services also will occur through the quarterly transit meetings.

## **Activities and End Products/Target Dates**

| Regional Bus Route Map  | December 2014  |

#### **RESOLUTION NO. 15-02**

A RESOLUTION OF THE BOARD OF THE ST. LUCIE TRANSPORTATION PLANNING ORGANIZATION, HEREINAFTER "BOARD", AUTHORIZING THE APPLICATION FOR FEDERAL TRANSIT ADMINISTRATION (FTA) METROPOLITAN PLANNING GRANT SECTION 5305(D) FUNDS AND EXECUTION OF A GRANT AGREEMENT FOR THE FUNDS WITH THE FLORIDA DEPARTMENT OF TRANSPORTATION FOR FISCAL YEAR 2015/16.

**WHEREAS**, the BOARD is eligible to apply for and receive FTA Section 5305(d) funds and to undertake metropolitan planning activities as authorized by U.S. Department of Transportation regulations.

## NOW, THEREFORE, BE IT RESOLVED BY THE BOARD THAT:

- 1. The BOARD has the authority to apply for Section 5305(d) funds and to execute a Section 5305(d) grant agreement.
- 2. The BOARD authorizes the TPO Executive Director to apply for Section 5305(d) funds and execute a Section 5305(d) grant agreement on behalf of the BOARD with the Florida Department of Transportation.
- 3. The BOARD's Registered Agent in Florida is the TPO Executive Director. The Registered Agent's address is 466 SW Port St. Lucie Boulevard, Suite 111, Port St. Lucie, Florida, 34953.
- 4. The BOARD authorizes the TPO Executive Director to sign any and all agreements or contracts which are required in connection with the grant agreement.
- 5. The BOARD authorizes the TPO Executive Director to sign any and all assurances, reimbursement invoices, warranties, certifications and any other documents which may be required in connection with the application, agreement or subsequent agreements.

PASSED AND DULY ADOPTED this 3rd day of June, 2015.

## **AGENDA ITEM SUMMARY**

**Board/Committee:** TPO Board

Meeting Date: June 3, 2015

**Item Number:** 9a

Item Title: Amendment to the FY 2014/15 – FY 2018/19

Transportation Improvement Program (TIP)

**Item Origination:** Florida's Turnpike Enterprise

**UPWP Reference:** Task 3.3—Transportation Improvement Program

(TIP)

**Requested Action:** Adopt the TIP amendment, adopt with

conditions, or do not adopt.

**Staff Recommendation:** Based on the recommendations from the TPO

Advisory Committees and because the proposed TIP amendment is not inconsistent with the 2035 RLRTP, it is recommended that the proposed TIP amendment to delete the Turnpike Heavy Truck Turnaround Project from the TIP be

adopted.

#### **Attachments**

- Staff Report
- TIP Amendment Request and Form

## **MEMORANDUM**

**TO:** TPO Board

**FROM:** Peter Buchwald

**Executive Director** 

**DATE:** May 28, 2015

SUBJECT: Amendment to the FY 2014/15 - FY 2018/19

**Transportation Improvement Program (TIP)** 

## **BACKGROUND**

The FY 2014/15 – FY 2018/19 TIP was adopted by the St. Lucie TPO on June 4, 2014. The TIP includes the construction of a heavy truck turnaround at Turnpike Milepost 168 in the St. Lucie TPO area. The construction of the project was programmed in the Turnpike Work Program prior to the design being completed. An evaluation of this project as part of the design phase determined that the proposed location for the project does not meet design criteria because there is not adequate median width. Therefore, the project is not feasible, and the Turnpike is requesting its deletion from the TIP.

## **ANALYSIS**

The TIP amendment is to delete a project that was not identified in the Cost Feasible Plan of the 2035 Regional Long Range Transportation Plan (2035 RLRTP). Therefore, the TIP amendment is not inconsistent with the 2035 RLRTP.

At their May meetings, the TPO Advisory Committees reviewed the proposed TIP amendment, and all of the committees recommend it for adoption.

## **RECOMMENDATION**

Based on the recommendations from the TPO Advisory Committees and because the proposed TIP amendment is not inconsistent with the 2035 RLRTP, it is recommended that the proposed TIP amendment to delete the Turnpike Heavy Truck Turnaround Project from the TIP be adopted.

## Florida Department of Transportation

JIM BOXOLD SECRETARY

March 4, 2015

Mr. Peter Buchwald, AICP Executive Director St. Lucie Transportation Planning Organization 466 SW Port St. Lucie Boulevard Port St. Lucie, FL 34953

RE: Request for TIP Amendment

Dear Mr. Buchwald:

The Florida Department of Transportation (FDOT) requests the following changes be made to the St. Lucie Transportation Planning Organization's (TPO's) Adopted FY 2014/2015 – FY 2018/2019 Transportation Improvement Program (TIP) in coordination with corresponding changes to FDOT's Work Program:

**Delete Project FPN 429351-1** for the construction of a heavy truck turnaround at Turnpike Milepost 168 in St. Lucie County.

## Programmed project phase to be deleted:

Phase 52 (Construction) in the amount of \$2,478,098 of Toll/Turnpike funds in FY 2015

## Reason for Request:

An evaluation of this project as part of the design phase determined that this proposed location does not meet design criteria.

Thank you for your assistance with this matter. If you have any questions, please contact Genessa Casanova, MPO Liaison, at (954) 934 – 1104.

Sincerely.

Randy Fox

Intermodal Systems Development Administrator

#### **AGENDA ITEM SUMMARY**

**Board/Committee:** TPO Board

Meeting Date: June 3, 2015

**Item Number:** 9b

Item Title: Amendment to the FY 2014/15 - FY 2018/19

Transportation Improvement Program (TIP)

**Item Origination:** Florida Department of Transportation (FDOT)

**UPWP Reference:** Task 3.3—Transportation Improvement Program

(TIP)

**Requested Action:** Adopt the TIP amendment, adopt with

conditions, or do not adopt.

Staff Recommendation: Based on the recommendations from the TPO

Advisory Committees and because the proposed TIP amendment is not inconsistent with the 2035 RLRTP, it is recommended that the proposed TIP amendment to advance the construction of the Indrio Road project to

FY 2015/16 in the TIP be adopted.

## **Attachments**

- Staff Report
- TIP Amendment Request and Form

## **MEMORANDUM**

**TO:** TPO Board

**FROM:** Peter Buchwald

**Executive Director** 

**DATE:** May 28, 2015

SUBJECT: Amendment to the FY 2014/15 - FY 2018/19

**Transportation Improvement Program (TIP)** 

## **BACKGROUND**

The FY 2014/15 – FY 2018/19 TIP was adopted by the St. Lucie TPO on June 4, 2014. The TIP includes the right-of-way acquisition phase for the Indrio Road project. The subsequent construction of the project is being proposed by the Florida Department of Transportation (FDOT) to be advanced to FY 2015/16, and FDOT is requesting that this phase be added to the TIP.

## **ANALYSIS**

The TIP amendment is to add the construction phase of a project that was identified in the FY 2015/16 – FY 2019/20 interval of the Cost Feasible Plan of the 2035 Regional Long Range Transportation Plan (2035 RLRTP). Therefore, the TIP amendment is not inconsistent with the 2035 RLRTP.

At their May meetings, the TPO Advisory Committees reviewed the proposed TIP amendment, and all of the committees recommend it for adoption.

## **RECOMMENDATION**

Based on the recommendations from the TPO Advisory Committees and because the proposed TIP amendment is not inconsistent with the 2035 RLRTP, it is recommended that the proposed TIP amendment to advance the construction of the Indrio Road project to FY 2015/16 in the TIP be adopted.

## Florida Department of Transportation

JIM BOXOLD SECRETARY

April 13, 2015

Mr. Peter Buchwald, Director St. Lucie Transportation Planning Organization 466 SW Port St. Lucie Boulevard Port St. Lucie, FL 34953

Dear Mr. Buchwald:

SUBJECT: St. Lucie Transportation Planning Organization (TPO)

FY 2014/15 - 2018/19 TIP Amendment Request

FM No. 230338-4, SR-614/Indrio Road from West of SR-9/I-95 to East of SR-

670/Emerson Ave

Pursuant to Title 23 and Title 49, the Florida Department of Transportation requests your processing and approval of the attached amendment to the FY 2014/15 – 2018/19 Transportation Improvement Program. This amendment is required because the construction phase of project has been advanced from 2020 to 2016, and the project cost has increased by more than 20% AND \$2 million and needs to be reflected in the TIP. This Transportation Improvement Program Amendment is consistent with the Adopted Long Range Transportation Plan and the adopted TIP remains financially constrained.

Please contact Darci Mayer at (954) 777-4491 if you have any questions or need additional information.

Sincerely,

Steven C. Braun, P.E.

District Planning & Environmental Engineer

District Four

## **AGENDA ITEM SUMMARY**

**Board/Committee:** TPO Board

Meeting Date: June 3, 2015

**Item Number:** 9c

Item Title: Draft FY 2015/16 – FY 2019/20 Transportation

Improvement Program (TIP)

**Item Origination:** Federal and State requirements

**UPWP Reference:** Task 3.3–TIP

**Requested Action:** Adopt the draft TIP, adopt with conditions, or do

not adopt

**Staff Recommendation:** As the Final Tentative Work Program appears to

be consistent with the Draft Tentative Work Program that was endorsed by the TPO Board and based on the recommendations of the TPO advisory committees, it is recommended that the draft FY 2015/16 - FY 2019/20 TIP be

adopted.

# **MEMORANDUM**

**TO:** TPO Board

**FROM:** Peter Buchwald

**Executive Director** 

**DATE:** May 28, 2015

SUBJECT: Draft FY 2015/16 - FY 2019/20 Transportation

Improvement Program (TIP)

# **BACKGROUND**

According to Federal and State requirements, the St. Lucie Transportation Planning Organization (TPO) annually must develop a Transportation Improvement Program (TIP). The purpose of the TIP is to identify the transportation improvement projects located within the TPO area that have been prioritized and are receiving Federal and State funding over a five-year period.

In addition, the TIP is used to coordinate projects among the U.S. Department of Transportation (USDOT), the Florida Department of Transportation (FDOT), and the local governments located within the TPO area. The TIP is developed and adopted annually by the TPO in cooperation with the USDOT, FDOT, TPO advisory committees, local governments, port and aviation authorities, transit operators, and the general public.

# **ANALYSIS**

The development of the TIP is a year-long process that is continuous, cooperative, and comprehensive. For the TPO's FY 2015/16 – FY 2019/20 TIP, the process started in July 2014 with a meeting with staffs from the St. Lucie TPO, FDOT District 4, and the local governments to informally discuss the TPO's priority projects. The List of Priority Projects (LOPP) then was developed, reviewed by the TPO advisory committees, adopted by the TPO Board, and submitted to FDOT District 4 in September 2014.

May 28, 2015 Page 2 of 2

The LOPP was utilized by FDOT District 4 to develop their Draft Tentative Work Program for FY 2015/16 – FY 2019/20. The Draft Tentative Work Program was reviewed and recommended for endorsement by the TPO advisory committees in November 2014 and was endorsed by the TPO Board in December 2014.

Highlights of the Draft Tentative Work Program included that the TPO's top priority project, Indrio Road, is now funded for construction in the next fiscal year. In addition, the Draft Tentative Work Program included funding for right-of-way acquisition for Port St. Lucie Boulevard, design and right-of-way acquisition for improvements at the intersection at U.S. Highway 1 and Virginia Avenue, design of the Advanced Transportation Management System for the TPO area, construction of the Tulip Boulevard Sidewalk, construction of the I 95/Gatlin Boulevard Jobs Express Terminal, and reconstruction of the I 95/St. Lucie West Boulevard Interchange. Furthermore, the establishment of new bus service through Lakewood Park and into Indian River County, which is one of the top ranked transit priority projects for the TPO, is included to start next fiscal year.

The Final Tentative Work Program was received from FDOT in April 2015 and was used to prepare the attached TIP through the web-based Interactive TIP. The Final Tentative Work Program is a primary component of the TIP.

The Final Tentative Work Program was reviewed by TPO staff for consistency with the Draft Tentative Work Program. The Final Tentative Work Program appears to be consistent with the Draft Tentative Work Program.

At their meetings during the week of May 18th, the TPO advisory committees recommended adoption of the FY 2015/16 – FY 2019/20 TIP subject to the incorporation of revisions to include several typographical and mapping errors and to clarify and incorporate additional descriptive information. These revisions have been incorporated into the draft TIP.

# **RECOMMENDATION**

As the Final Tentative Work Program appears to be consistent with the Draft Tentative Work Program that was endorsed by the TPO Board and based on the recommendations of the TPO advisory committees, it is recommended that the draft FY 2015/16 – FY 2019/20 TIP be adopted.

Appendix D: Local Projects - St. Lucie County

### A. INTRODUCTION

### A.1 How to Use the TIP

The intent of the Transportation Improvement Program (TIP) is to identify and prioritize the transportation improvement projects over the next five years that are receiving State and Federal funding and are located within the Metropolitan Planning Area (MPA) of the St. Lucie Transportation Planning Organization (St. Lucie TPO). The TPO MPA is identified on the map on page A-7.

### To use the TIP:

- Locate the project in the Project Index in Section A.2 or on either of the Project Location Maps in Section A.3 to identify the Project Number or Project Name.
- Using the Project Name, reference directly the alphabetically-listed projects in the Detailed Project Listing pages or, by using the Project Number, identify the TIP Page Number for the project from the Project Index.
- Refer to the corresponding TIP Page Number to obtain information regarding the project in the Detailed Project Listings pages.
- Refer to the corresponding RLRTP Page Number in the Project Index or in the Detailed Project Listings pages to cross-reference the project, if applicable, in the St. Lucie/Martin 2035 Regional Long Range Transportation Plan (RLRTP).
- Refer to Section A.4 for a Glossary of Abbreviations and Phase/Funding Codes.
- Refer to Section B for information on Federal and State requirements for development of the TIP.
- Refer to Section C for the Detailed Project Listings which include whether the project is located on the Florida Strategic Intermodal System (SIS) and the Total Project Cost.
- Refer to Section D for the TPO List of Priority Projects.
- Refer to the Appendices for an Example Public Comment Notice and for information on locally-funded projects and TIP amendments that have been adopted.
- Refer to the contact information on the cover of the TIP if you have any questions or comments.

# **Explanations of the SIS and Total Project Costs**

**SIS:** The SIS is a network of high priority transportation facilities in Florida which includes the State's largest and most significant commercial service airports, spaceport, deep-water seaports, freight and passenger rail terminals, intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier in the top right corner of the Detailed Project Listings pages in Section C of the TIP.

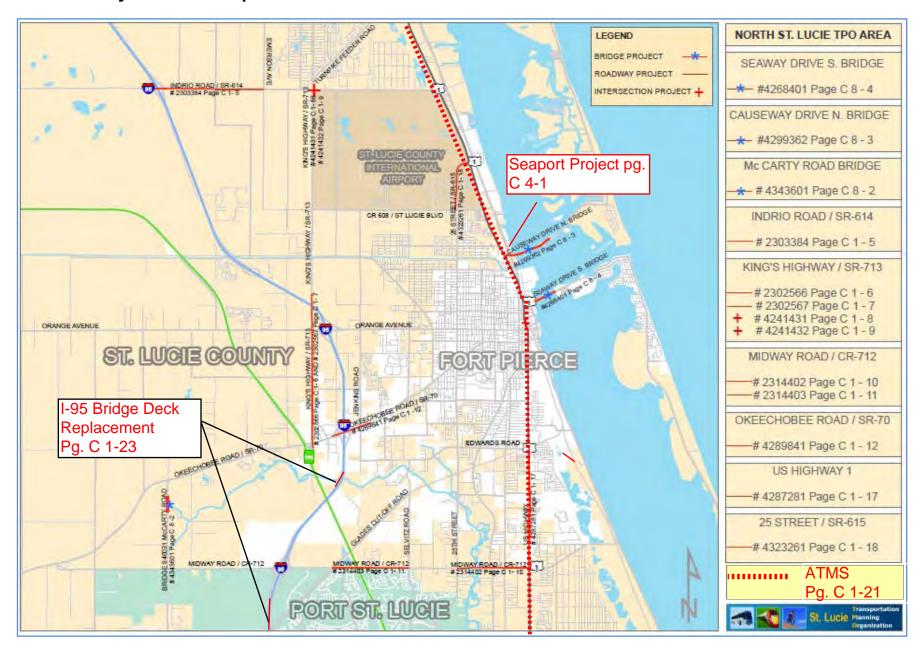

**Total Project Costs:** A typical project production sequence is to have a Project Development and Environment (PD&E) phase, followed by a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not include a ROW phase if land acquisition is not needed to complete the project. Costs in the Detailed Project Listing pages in Section C of the TIP may include the historical costs (Prior Year Cost), the costs in the five years of the current TIP, the costs in the years beyond the current TIP (Future Year Cost), and the sum of all of these costs which is the Total Project Cost. For some projects such as resurfacing, safety, or operational projects, there may not be a Total Project Cost identified, but additional details on that program will be included.

Note: An \* In the RLTP Page column indicates that the project was included in the 2030 St. Lucie/Martin Regional Long Range Transportation Plan (RLRTP) Cost Feasible Plan and is now funded for construction and outside of the 2035 RLRTP planning period. The projects included in this table are illustrated on maps in Section A.3

# A.5 TPO Metropolitan Planning Area Map

### B. NARRATIVE

# **B.1** Purpose

The purpose of the TIP is to identify and prioritize transportation improvement projects receiving Federal and State funding over a five-year period that are located within the St. Lucie TPO MPA. In addition, the TIP is used to coordinate the transportation improvement projects of the U.S. Department of Transportation (USDOT), the Florida Department of Transportation (FDOT), and the local governments located within the MPA. Projects in the TIP are presented in Year of Expenditure (YOE), which takes into account the inflation rate over the five years in the TIP. The programmed cost estimate for each project is therefore inflated to the year that the funds are expended based on reasonable inflation factors developed by the State and its partners. The TIP is also used to identify all regionally significant transportation projects for which Federal action is required, whether or not the projects receive Federal funding. As the St. Lucie TPO is in an air quality attainment area, there are no regionally significant air quality-related transportation improvement projects in the TIP.

### **B.2** Financial Plan

The Financial Plan of the TIP is based upon the FDOT District 4 Tentative Work Program for FY 2015/16 – FY 2019/20; the previous **year's TI**P; the 2035 St. Lucie/Martin Regional Long Range Transportation Plan (RLRTP); and information provided by St. Lucie County, the City of Port St. Lucie, and the City of Fort Pierce. The Financial Plan includes Federal, State, and local transportation funding sources which are identified in the following tables based on the type of transportation improvement:

| HIGHWAY/ROADWAY/SIDEWALK FUNDING<br>SOURCES | FUND       | TOTAL       | 2015/16     | 2016/17     | 2017/18    | 2018/19    | 2019/20    |

# **B.3** Project Selection

The selection of federally-funded projects within the St. Lucie TPO MPA for the TIP is consistent with Federal regulations [23 CFR 450.330(c)] and is carried out by the TPO in cooperation with FDOT and the transit operator. The TIP has been developed in coordination with the USDOT, FDOT, St. Lucie TPO Advisory Committees, local governments, port and aviation authorities, transit operators, and the general public as summarized in Section B.6 of the TIP.

For the TPO's FY 2015/16 – FY 2019/20 TIP, the project selection and TIP development process started in July 2014 with a meeting with staffs from the St. Lucie TPO, FDOT District 4, and the local governments to informally discuss the priority projects. The List of Priority Projects (LOPP) then was developed based on the RLRTP and other plans as identified in Section 2.4, local agency input, and public comments. The LOPP was reviewed by the St. Lucie TPO Advisory Committees and was adopted by the St. Lucie TPO Board and submitted to FDOT District 4 in September 2014. The LOPP was utilized by FDOT District 4 to develop their Draft Tentative Work Program for FY 2015/16 – FY 2019/20. The Draft Tentative Work Program was reviewed and endorsed by the Advisory Committees in November 2014 and by the Board in December 2014. The Final Tentative Work Program was received from FDOT in April of 2015. The Final Tentative Work Program is the primary component of the TIP.

The TPO LOPP is reproduced in Section D of the TIP and the project selection and prioritization process is noted.

# **B.4** Consistency with Other Plans

The projects in the TIP are based on the RLRTP, the St. Lucie Transit Development Plan, the Transportation Disadvantaged Service Plan / the coordinated Public Transit – Human Services Transportation Plan, and other transportation plans of the St. Lucie TPO. These plans are cross-referenced in the LOPP, and the TIP projects are cross-referenced with the RLRTP in the Project Index and TIP/RLRTP Cross-Reference in Section A.2. The projects also are consistent with the St. Lucie County Airport Master Plan, the Port of Fort Pierce Master Plan, and the 2060 Florida Transportation Plan.

In addition, the TIP has been developed to be consistent with adopted local Comprehensive Plans including the St. Lucie County, City of Fort Pierce, City of Port St. Lucie, and St. Lucie Village Comprehensive Plans. The transportation network in the TPO MPA contains the traffic circulation elements included in the adopted St. Lucie County, City of Fort Pierce, City of Port St. Lucie, and St. Lucie Village Comprehensive Plans. Projections of future traffic volumes and levels of service were developed based on the Future Land Use Elements of the respective plans. The projections, as identified in the 2035 RLRTP, served as a basis for determining the need for new or expanded transportation facilities and transportation management systems to support proposed development and to maintain or improve adopted level of service standards.

# **B.5** Project Priority Statement

The projects selected in the TIP are based upon the TPO LOPP and the corresponding prioritization methodology and the goals, objectives and policies of the RLRTP. The project prioritization was based on qualitative and quantitative analyses of the transportation projects in the TPO MPA. The criteria used in the analyses include the evaluation of needs, levels of service, concurrency requirements, multi-modal opportunities, cost-benefit ratios, safety and security considerations, environmental impacts, importance to the transportation network, beautification, and consistency with the plans identified previously in Section B.4. A copy of the LOPP is included in Section D of the TIP, and the methodology for project selection is further detailed in Chapter 4 of the 2035 RLRTP.

### **B.6** Public Involvement

Public involvement in the development of the LOPP and the TIP is continuous, cooperative, and comprehensive and was conducted in accordance with the adopted Public Involvement Program (PIP) of the St. Lucie TPO and with Federal regulations [23 CFR 450.316 and 23 CFR 450.324(b)]. Reasonable opportunity to comment on the LOPP and the TIP was provided to all interested parties including, but not limited to, citizens, affected public agencies, public transit providers, freight shippers, private transportation providers, bicycle/pedestrian representatives, and the disabled. The process included those traditionally underserved and underrepresented consistent with the principles of Title VI. The process is followed for all projects funded in whole or part by the Federal Transit Administration (FTA) or the Federal Highway Administration (FHWA) pursuant to the Federal requirements.

Adequate and timely notice of public comment opportunities, the use of visualization techniques and electronic formats for the presentation of information, and convenient public meetings were incorporated into the public involvement process for the LOPP, Tentative Work Program, and the TIP. The notices and opportunities for public comment that were provided included the following:

- Display advertising of public meetings and comment opportunities in a daily local newspaper of general circulation.
- Posting of public meetings and comment opportunities on the TPO website.
- Providing notices of public meetings and comment opportunities to interested parties including citizens, affected public agencies, public transit providers, freight shippers, private transportation providers, bicycle/pedestrian representatives, and the disabled.
- Providing draft materials for review in person or by mail, fax or email.
- Conducting public meetings of the Advisory Committees and Board for the LOPP, Tentative Work Program and the TIP.
- Incorporating general public comment opportunities at the start of all public meetings.
- Providing comment cards at all public meetings.

All the comments that were received were considered in the preparation of the LOPP and TIP. An Example Public Comment Notice is reproduced in Appendix A.

### **B.7 TIP Amendments**

TIP Amendments are completed in accordance with applicable requirements [23 CFR 324 and 326] when a project is added or deleted, when the fiscal constraint of the TIP is impacted by a project, and/or when there are significant changes in the scope of a project. The amendment of the TIP includes the preparation of a TIP Amendment Form that summarizes the nature of the changes.

Prior to the adoption of a TIP amendment by the TPO Board, notice and public comment opportunities are provided regarding the amendment consistent with Section B.6. Upon adoption of the amendment by the TPO Board, the TIP Amendment Form is incorporated into Appendix E of the TIP.

# B.8 Annual Listing of Obligated Federal Funding/Implemented Projects FY 2014-2015

The annual listing of implemented projects for which federal funds have been obligated in the preceding year has been made available for public review and is summarized in the following table:

| FDOT     | DESCRIPTION                          | PROJECT      | MILES    | 2014       | FUND | PRELIMINARY | RIGHT-OF- | CONSTRUCTION | GRANTS | RR        |

### **B.9** Certifications

To ensure Federal requirements are being met, the FHWA and FTA conduct Federal certification reviews on a quadrennial basis of the urbanized areas of TPOs/MPOs which also are designated by census as Transportation Management Areas (TMAs) because the population exceeds 200,000 people. The urbanized area of the St. Lucie TPO is designated as the Port St. Lucie TMA. The last Federal review of the TMA was completed in September 2013 and resulted in six Noteworthy Practices being identified for the St. Lucie TPO. No Corrective Actions were identified for the St. Lucie TPO as a result of the review.

The TPO and FDOT also perform joint certification reviews annually to ensure that State and Federal requirements are being met. The last joint certification review was completed in May 2015 which resulted in the joint certification of the St. Lucie TPO. Support documentation concerning the Federal and joint certification reviews is on file at the St. Lucie TPO offices and available for review during normal business hours.

# **B.10** Congestion Management Process (CMP)

The development and implementation of a CMP is a requirement to be eligible for Federal funding. CMP Box Funds in the amount of \$300,000 - \$400,000 annually have been established by the St. Lucie TPO. Beyond the five fiscal years of the TIP, the RLRTP continues to allocate \$300,000 in funding towards the CMP on a yearly basis through 2035.

The overall purpose of the St. Lucie TPO CMP is to create a better quality of life for St. Lucie residents and visitors through lowering travel delay, reducing harmful emissions, and improving safety. The CMP identifies areas with congestion or safety issues, develops strategies to address the issues, and prioritizes projects based a ranking criteria.

The St. Lucie TPO CMP was adopted in 2011, and a two-tiered approach (Tier I and Tier II) was utilized in the CMP to identify projects. The Tier I analysis provided a system-wide screening for areas of concern. The Tier II analysis included a detailed evaluation of the identified areas of concern. Based on the results of the Tier II evaluation, CMP projects were identified, and a project scoring criteria and the basis for the CMP Implementation Plan were developed.

Incorporating multimodal performance measures, the CMP Implementation Plan utilizes both traditional and non-traditional strategies to address the areas of concern, to reduce vehicle miles traveled, and to consider climate adaptation and proposes improvements which support multimodal elements and safety. The CMP projects from the CMP Implementation Plan that are not funded in the TIP may be added to CMP List of the TPO's LOPP for future funding with the CMP Box Funds.

# **B.11** Transportation Disadvantaged (TD) Program

TD services are facilitated by the St. Lucie TPO pursuant to Florida Statute 427.015. The projects and costs of the St. Lucie TPO TD Program are summarized in the following:

# **B.12** Transportation Regional Incentive Program (TRIP)

In 2005, the Florida Legislature enacted the Florida TRIP through Senate Bill 360. The stated purpose of the program is to encourage regional planning by providing state matching funds for improvements to regionally-significant transportation facilities identified and prioritized by regional partners.

According to FDOT, two primary program requirements are as follows:

- 1) Eligible recipients must be a partner, through an Interlocal Agreement, to a regional transportation planning entity; and,
- 2) The partners must represent a regional transportation planning area and develop a plan that identifies and prioritizes regionally significant facilities.

To satisfy the application requirements for TRIP funding, an Interlocal Agreement was executed by the St. Lucie TPO, Martin MPO, and Indian River MPO to create a regional transportation planning entity known as the Treasure Coast Transportation Council (TCTC). The TCTC subsequently adopted a plan to identify and prioritize regionally significant facilities for the selection of projects for TRIP funding. This plan was included in the respective Long Range Transportation Plans of the St. Lucie TPO/Martin MPO and the Indian River MPO.

St. Lucie TPO projects currently programmed include \$8,289,736 of TRIP funding. The SR-713 @ SR-614 project (#4241432) is receiving \$5,190,121 in TRIP funding, and the SR-9/I-95 @ St. Lucie West Boulevard project (#4353371) is receiving \$3,099,615 in TRIP funding.

# TRANSPORTATION IMPROVEMENT PROGRAM PUBLIC COMMENT OPPORTUNITIES

Public comment opportunities are provided for the draft FY 2015/16–FY 2019/20 Transportation Improvement Program (TIP) of the St. Lucie Transportation Planning Organization (TPO). The TIP identifies the transportation projects that are expected to occur within the TPO area over the next 5 years.

#### **To Obtain the TIP for Review**

- 1) Appear in person or write to the St. Lucie TPO at 466 SW Port St. Lucie Boulevard, Suite 111, Port St. Lucie, Florida, 34953
- 2) Call 772-462-1593
- 3) Access the TPO website at <a href="https://www.stlucietpo.org">www.stlucietpo.org</a>

#### To Provide Comments on the TIP

- 1) Write to the St. Lucie TPO at 466 SW Port St. Lucie Blvd, Suite 111, Port St. Lucie, Florida, 34953
- 2) Call 772-462-1593
- 3) Email TPOAdmin@stlucieco.org
- 4) Appear in person at the following upcoming, public St. Lucie TPO Board Meeting: June 3, 2015, 2:00pm

Coco Vista Centre

466 SW Port St. Lucie Boulevard, Suite 111

Port St. Lucie, Florida,

#### **For Special Assistance**

<u>Disabled</u>: Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Marceia Lathou, 772-462-1593, at least five days prior to the meeting. Persons who are hearing or speech impaired may use the Florida Relay System by dialing 711.

<u>Kreyol Ayisyen</u>: Si ou ta rinmin recevoua information sa en crèole si I bous plait rèlè 772-462-1593.

<u>Español</u>: Si usted desea recibir esta información en español, por favor llame al 772-462-1593.

Title VI Statement: The St. Lucie TPO satisfies the requirements of various nondiscrimination laws and regulations including Title VI of the Civil Rights Act of 1964. Public participation is welcome without regard to race, color, national origin, age, sex, religion, disability, income, or family status. Persons wishing to express their concerns about nondiscrimination should contact Marceia Lathou, the Title VI/ADA Coordinator of the St. Lucie TPO, at 772-462-1593 or via email at lathoum@stlucieco.org.

#### AGENDA ITEM SUMMARY

**Board/Committee:** TPO Board

Meeting Date: June 3, 2015

**Item Number:** 9d

Item Title: Go2040 Long Range Transportation Plan (LRTP)

Goals, Objectives, and Performance Measures

(GOPMs)

**Item Origination:** 2040 LRTP Development Process

**UPWP Reference:** Task 3.1 – Long Range Transportation Planning

and MAP-21 Implementation

**Requested Action:** Adopt the draft GOPMs, adopt with conditions,

or do not adopt.

Staff Recommendation: Based on the recommendations of the TPO

Advisory Committees and on the draft GOPMs being consistent with MAP-21, local plans, the state long range transportation plan, and stakeholder input received to date, it is recommended that the draft GOPMs be adopted.

#### **MEMORANDUM**

**TO:** TPO Board

**FROM:** Peter Buchwald

**Executive Director** 

**DATE:** May 29, 2015

SUBJECT: Go2040 Long Range Transportation Plan (LRTP) Goals,

Objectives, and Performance Measures (GOPMs)

#### **BACKGROUND**

The development of the Go2040 LRTP includes the development of a vision, GOPMs, and project evaluation criteria. It is requested that the draft vision and the GOPMs be reviewed and considered for adoption.

#### **ANALYSIS**

The vision was drafted to include such concepts that ultimately result in a successful long range plan which improves the quality of life of the communities of the St. Lucie TPO area. The draft vision for the Go2040 LRTP is as follows:

# A balanced and funded transportation system that meets the community's needs.

The attached goals and objectives, which support achieving the vision, were developed by reviewing the federal requirements known as MAP-21, local plans, the state long range transportation plan, and most importantly, the stakeholder input that has been received to date. A summary of a portion of the stakeholder input is attached.

Six goals were developed which focus on the following issues that were synthesized from the stakeholder input:

May 29, 2015 Page 2 of 2

- Economic prosperity
- Transportation choices
- The existing transportation system
- Cooperation
- Health and the environment
- Safety and security

A total of 12 objectives, two for each goal, were developed which support the goals and reflect desired outcomes.

A total of 24 performance measures were developed to enable the monitoring of progress toward achieving the outcomes. As MAP-21 requires a measurement of transportation system performance, several of the measures were developed to be consistent with MAP-21 and to align with measures that the Florida Department of Transportation (FDOT) is developing.

Tied to the GOPMs will be project evaluation criteria, currently under development, by which projects may be scored and ranked. The scoring and resultant ranking may be used by the TPO Board as a tool for project prioritization and selection for the Cost Feasible Plan of the Go2040 LRTP.

At their May meetings, the TPO Advisory Committees reviewed the proposed GOPMs, and all of the committees recommend it for adoption.

#### RECOMMENDATION

Based on the recommendations of the TPO Advisory Committees and on the draft GOPMs being consistent with MAP-21, local plans, the state long range transportation plan, and stakeholder input received to date, it is recommended that the draft GOPMs be adopted.

### **St Lucie TPO Draft Goals, Objectives and Performance Measures**

#### St Lucie TPO Go2040 VISION

A balanced and funded transportation system that meets the community's needs

#### **GOAL STATEMENTS**

#### We want to invest in:

#### **Economic Prosperity and Growth**

Provide for efficient transportation that serves local and regional needs and stimulates economic prosperity and growth

#### Choices

Ensure transportation choices for all residents, visitors, and businesses

#### **Existing Assets and Services**

Maintain the condition and improve the efficiency of transportation assets and services

#### Cooperation

Improve land use and transportation decision-making through community participation and intergovernmental cooperation

#### **Health and Environment**

Protect and enhance **public health** and the environment

#### **Safety and Security**

Provide safer and more secure transportation

#### Go2040 LRTP Draft Goals, Objectives, and Performance Measures (GOPMs)

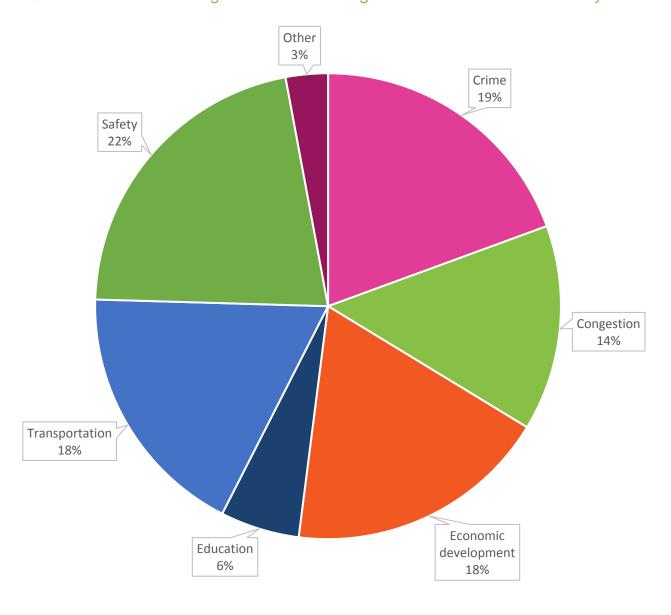

| Goals |                                | Objectives  | Proposed Performance Measures   |     | FDOT<br>PM | Criteria #'s    |  |  |

# Public Involvement Survey Responses

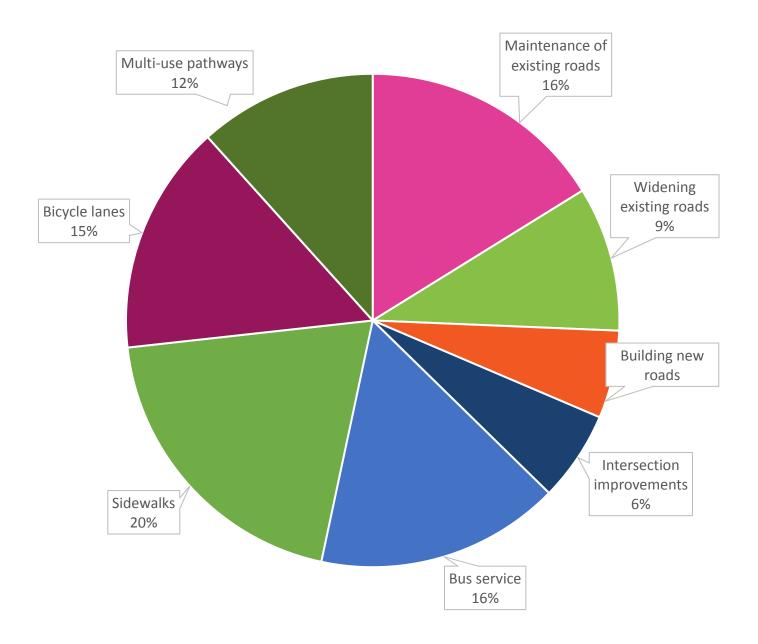

The initial 6 question survey was handed out at a variety of public events and meetings. There were 181 respondents. The goal of this initial phase was to get community feedback on a variety of transportation issues. The following charts illustrate the responses to each question asked in the survey. This input will be used to develop the 2040 Long Range Transportation Plan (LRTP).

Question 1: What is the greatest issue facing the TPO? Please choose only one.

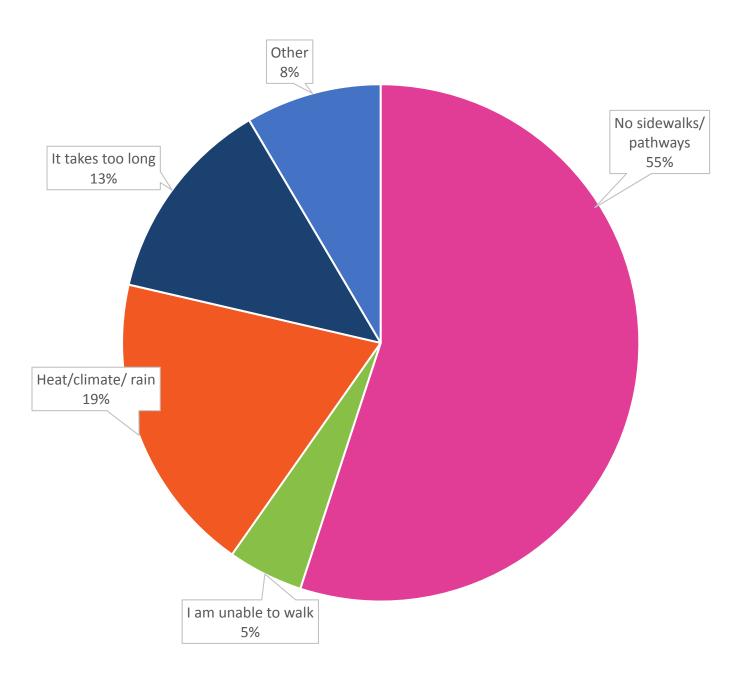

## Question 2: What are the top three areas where public money should be spent?

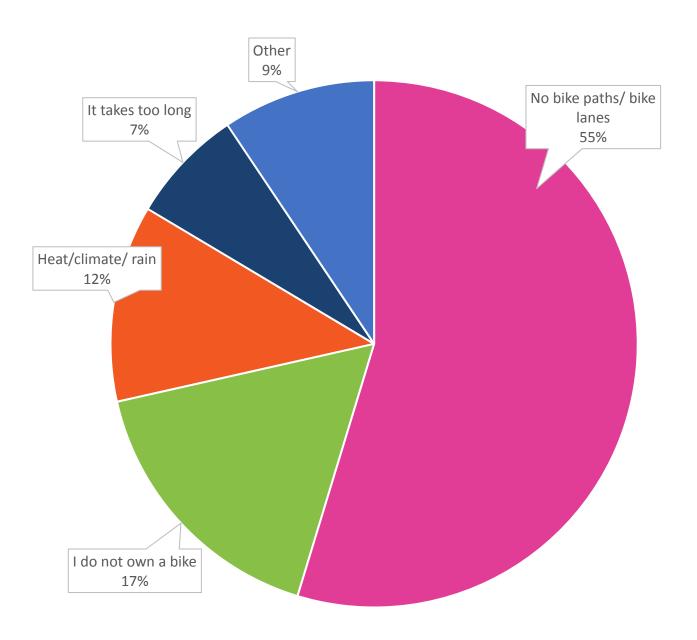

Question 3: What is the greatest barrier that keeps you from walking? Check all that apply.

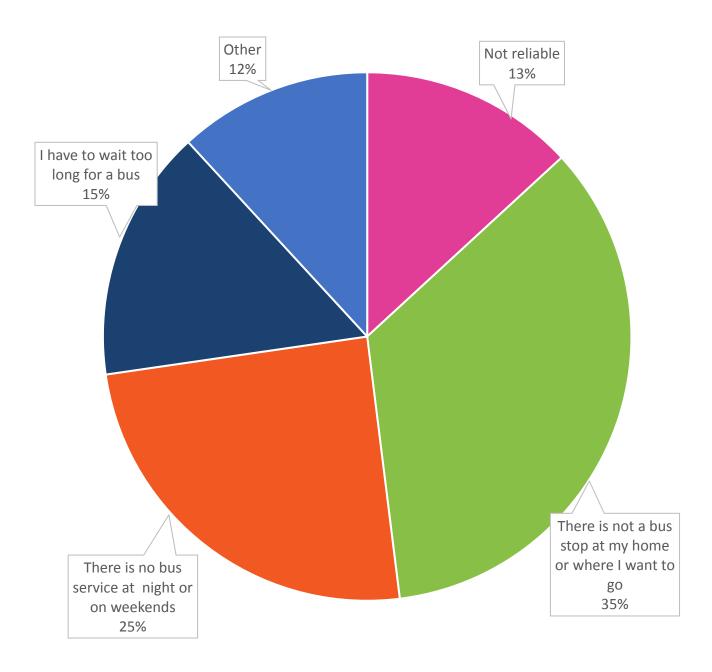

Question 4: What is the greatest barrier that keeps you from biking? Check all that apply.

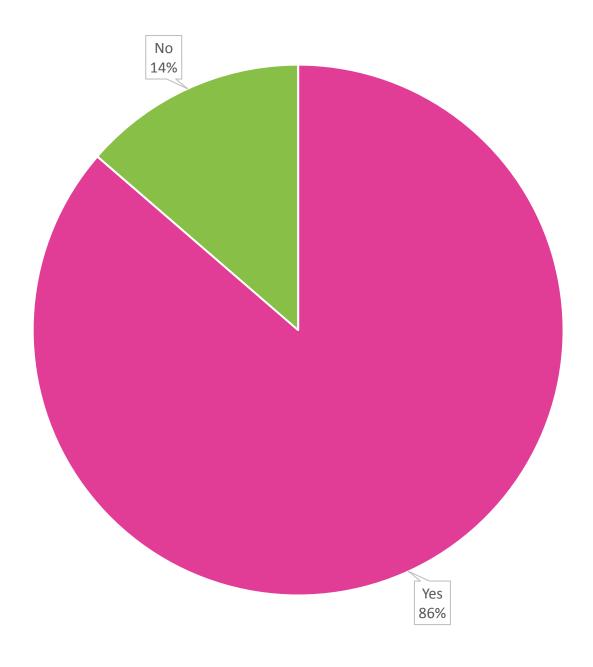

Question 5: What is the greatest barrier that keeps you from using the bus? Check all that apply.

Question 6: Do you support additional public money from local governments for funding specific transportation projects?

#### AGENDA ITEM SUMMARY

**Board/Committee:** TPO Board

Meeting Date: June 3, 2015

Item Number: 9e

Item Title: Transportation Regional Incentive Program

(TRIP) Grant Applications for 2015

**Item Origination:** 2015 TRIP Grant Cycle

**UPWP Reference:** Task 5.1 – Models of Regional Planning

Cooperation

**Requested Action:** Endorse the TRIP grant applications for the

2015 grant cycle, endorse with conditions, or do

not endorse.

Staff Recommendation: Based on the recommendations of the TPO

Advisory Committees and on the subjects of the applications being TPO Priority Projects, it is recommended that the TRIP project applications for Port St. Lucie Boulevard and Phase 1 of the St. Lucie Advanced Transportation Management

System be endorsed.

#### **Attachments**

- Staff Report
- TRIP Applications

Coco Vista Centre 466 SW Port St. Lucie Blvd, Suite 111 Port St. Lucie, FL 34953 772-462-1593 www.stlucietpo.org

#### **MEMORANDUM**

**TO:** TPO Board

**FROM:** Peter Buchwald

**Executive Director** 

**DATE:** May 29, 2015

SUBJECT: Transportation Regional Incentive Program (TRIP)

**Grant Applications for 2015** 

#### **BACKGROUND**

In 2005, TRIP was created by Florida legislation for the purpose of providing funds to improve regionally significant transportation facilities, including transit facilities, in regional transportation areas. In 2006, the Treasure Coast Transportation Council (TCTC), consisting of two members each from the St. Lucie TPO and the Indian River and Martin Metropolitan Planning Organizations (MPOs), was created as a regional transportation area to pursue TRIP funds for the three-county region.

The Florida Department of Transportation District 4 (FDOT) has indicated that TRIP funding is available according to the following schedule:

| FY 16/17 | \$240,000   |
|----------|-------------|
| FY 17/18 | \$270,000   |
| FY 18/19 | \$360,000   |
| FY 19/20 | \$990,000   |
| Total    | \$1,860,000 |

#### **ANALYSIS**

Potential projects for TRIP funding must meet eligibility requirements and are prioritized according to several criteria. The most significant of these requirements typically has been the 50 percent local match that is required for a TRIP project. In addition, projects considered for TRIP funding

May 29, 2015 Page 2 of 2

historically have been derived from the Regionally Ranked Needs Project List which is referenced on the attached applications.

Because none of the local jurisdictions submitted applications for the 2015 TRIP grant cycle, it is recommended that the TPO submit applications for the widening of Port St. Lucie Boulevard from Paar Drive to Darwin Boulevard and for Phase 1 of the St. Lucie Advanced Transportation Management System (ATMS). The TRIP funding for FY 16/17 is being requested for the Port St. Lucie Boulevard project, and the TRIP funding for the subsequent fiscal years is being requested for Phase 1 of the ATMS project. Both projects are TPO Priority Projects. The TPO would use its federal funding as local matches for the TRIP funding as provided for in Chapter 40 of the FDOT Work Program Instructions.

At their May meetings, the TPO Advisory Committees reviewed the proposed TRIP grant applications, and all of the committees recommend the applications for endorsement.

#### **RECOMMENDATION**

Based on the recommendations of the TPO Advisory Committees and on the subjects of the applications being TPO Priority Projects, it is recommended that the TRIP project applications for Port St. Lucie Boulevard and Phase 1 of the St. Lucie Advanced Transportation Management System be endorsed.

# Transportation Regional Incentive Program (TRIP) Project Application

TRIP was created to improve regionally significant transportation facilities in "regional transportation areas." State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed projects that benefit regional travel and commerce.

If selected for funding, the Florida Department of Transportation (FDOT) will pay for up to 50 percent of project/phase costs, or up to 50 percent of the non-federal share of project/phase costs for public transportation facility projects.

While there is no rigid application procedure, the Department has created this application to facilitate the assembly of pertinent project information by implementing agencies and Regional Transportation Areas related to candidate TRIP projects. The goal of this document is to provide a framework to project sponsors.

**Regional Transportation Area:** SEFTC ☐ or TCTC ☐ (Check one)

#### **Implementing Local Agency:**

Local Agency: St. Lucie Transportation Planning Organization/Florida Department of Transportation District 4

Address: 466 SW Port St. Lucie Boulevard, Suite 111, Port St. Lucie, Florida 34953

Project Manager: Peter Buchwald/Rita Bulsara

Phone: (772) 462-1593

E-mail: buchwaldp@stlucieco.org

TCTC funding for this cycle:

| Total    | \$1,860,000 |  |
|----------|-------------|--|
| FY 19/20 | \$990,000   |  |
| FY 18/19 | \$360,000   |  |
| FY 17/18 | \$270,000   |  |
| FY 16/17 | \$240,000   |  |
|          |             |  |

Note: The funding is an estimated allocation from FDOT, and is subject to change. While the Department strives to statutorily divide the funding between the two regional transportation areas, programming will be subject to updating existing project cost estimates, the number of submitted eligible applications, and their associated cost estimates.

### **Project Information:**

Describe the project and what it will accomplish. Is the project consistent with:

- Long Range Transportation Plan
- Transit Development Plan
- Transportation Improvement Plan
- Local Comprehensive Plan(s)

Please provide the priorities and identify the page numbers for each below:

The Greater Treasure Coast Regional Planning Model Version 4 identifies the segment with a failing level of service in the future. The project will alleviate the future traffic congestion by adding vehicle lanes and will improve safety by addressing the existing roadway deficiencies with regard to the lack of a median and bicycle and pedestrian infrastructure. In addition to being identified in the Regionally Ranked Needs Project List, the project is identified in the 2035 Regional Long Range Transportation Plan (page 8-19), the FY 2015/16 – FY 2019/20 Draft Tentative Work Program (page 11), the FY 2014/15 – FY 2018/19 Transportation Improvement Program (page C 1-17), and the St. Lucie TPO's 2014/15 List of Priority Projects. The adopted comprehensive plans of St. Lucie County and the City of Port St. Lucie classify Port St. Lucie Boulevard as an Urban Principal Arterial critical to facilitating the north-south movement of traffic in southern St. Lucie County.

Describe how the project will improve regional mobility within the Regional Transportation Area: (For example, describe how this transit project facilitates the intermodal or multimodal movement of people and/or goods.)

The project will improve the regional mobility within the Regional Transportation Area by increasing the multimodal capacity of the corridor which extends through the most populous area of the region into Martin County and which provides connections to and/or serves as parallel facilities for U.S. Highway 1, Florida's Turnpike, and I-95.

Illustrate how the project reflects the statutory (339.2817) guidelines under which the District will prioritize and select candidate projects for funding:

- Increases capacity
- Provide connectivity to the SIS
- Support economic development and goods movement in rural areas of opportunity
- Are subject to local ordinances that establish corridor management techniques
- Improve connectivity between military installations and the Strategic Highway Network (STRAHNET) or the Strategic Rail Corridor Network (STRACNET)

The project tremendously increases capacity by doubling the number of lanes of the segment and incorporating bicycle and pedestrian facilities where currently there is none. The project will enhance the connectivity to the SIS and U.S. Highway 1 and significantly contribute to the growth and sustainability of the region by expanding multimodal access to residential properties, shopping centers, schools, and recreational facilities as identified in the recently-approved Project Development & Environment Study (PD&E).

How will TRIP funding accelerate the project's implementation?

The TRIP funding will allow \$240,000 of programmed SU funds to be redirected from the ROW Phase to the Construction Phase which will support the advancement of the construction of the project and accelerate its ultimate implementation.

Provide detailed project cost estimates for each phase requested (required). Construction estimates shall be broken down to FDOT typical pay items to allow for verification of eligible project costs. Estimates are to be prepared and signed by a Professional Engineer from the Local Agency's Engineering office. Each phase requested (i.e. design, right-of-way, construction, CEI) requires a 50% local agency match.

For transit projects include a budget in accordance with FTA guidance for the Section 5307 Program consistent with FTA C 9030.1.

A detailed cost estimate is attached (see Attachment D - Work Program Excerpt)

Describe source of matching funds per phase requested and any restrictions on availability. Each phase requested (i.e. design, right-of-way, construction, CEI) requires at least a 50% local agency match. Each phase requested shall be separated by at least 2 fiscal years (the Department's fiscal year runs from July to June).

#### The matching funds are programmed SU funds that are detailed as follows:

| Phases requested: |   | FY requested | FDOT Amount requested | Local Match    |
|-------------------|---|--------------|-----------------------|----------------|
|                   | Design<br>Right of Way<br>Construction<br>CEI | FY 16/17     | \$240,000             | \$265,652 (SU) |

#### **Project Qualification Information:**

• Will this project affect any historic property that is included or eligible for inclusion in the National Register of Historic Places? If so, has the Division of Historical Resources been given a chance to comment on the project?

#### NO

• Will this project involve the demolition or substantial alteration of a historic property in a way which adversely affects the character, form, integrity, or other qualities which contribute to the historical, architectural, or archaeological value of the property? If so, timely steps must be taken to determine that no feasible and prudent alternative to demolition or substantial alteration exists, and, where no such alternative exists, timely steps must be taken to mitigate the adverse effects or to undertake an appropriate archaeological salvage excavation or other recovery action to document the property as it existed prior to demolition or alteration.

#### NO

Please note. If federal funding or a federal permit will be involved, then the requirements of the National Historic Preservation Act of 1966 (as amended) and 36 Code of Federal Regulations Part 800 apply.

The Department's process for complying with federal and state historic preservation requirements is found in the Project Development and Environment Manual; Part 2, Chapter 12 (Archeological and Historical Resources). If the local agency does not have its own process, we recommend they use the Department's.

• Describe the project's existing Right-of-Way ownerships. This description shall identify when the Right-of-Way was acquired and how ownership is documented (i.e. plats, deeds, prescriptions, certified surveys, easements).

The right-of-way is owned by private parties as identified in the recently-approved PD&E Study.

Please also provide, in addition to this application, location map, scope, typical section, and cost estimate requested above, the following information:

**Attachment A**: Documentation showing that the facility to be improved has been identified by the Regional Transportation Area as part of an integrated regionally significant transportation system. (*attached*)

Attachment B: The prioritized list of regionally significant projects developed by the Regional Transportation Area. (attached)

Attachment C: Project support data, as appropriate. (refer to PD&E)

Attachment D: Provide implementation schedules for all appropriate phases. (attached)

**Attachment E:** Document that the candidate improvement appears in the capital improvement schedule of the local comprehensive plan. (attached)

**Attachment F:** Document that level-of-service standards for the facility to be improved have been adopted by the local government with jurisdiction and are consistent with the level-of-service standards adopted by FDOT. (attached)

Attachment G: Document that the candidate project meets the following TRIP statutory eligibility requirements. (attached)

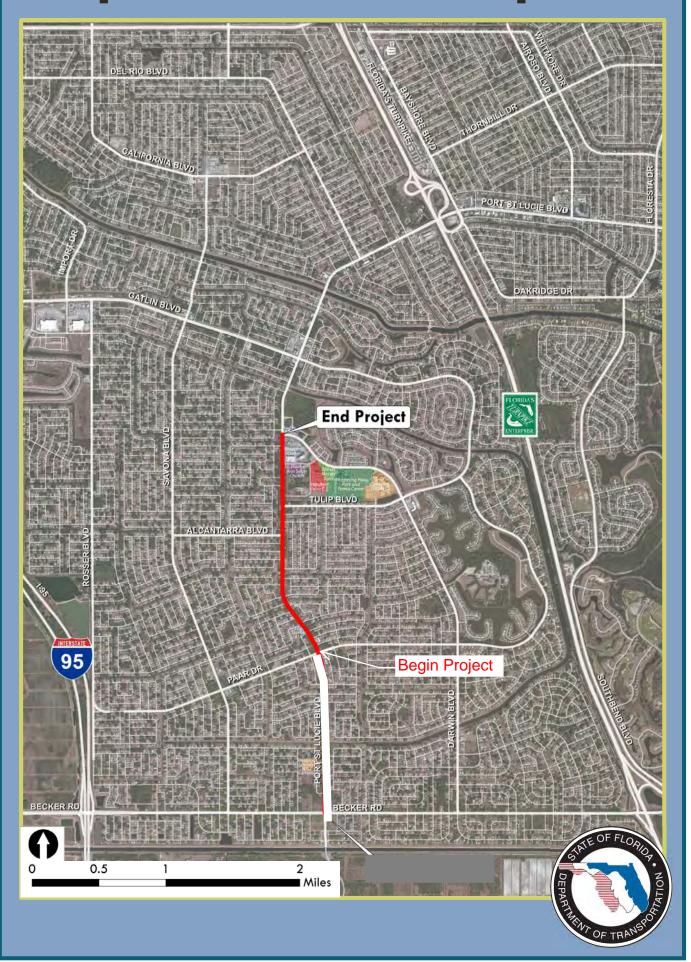

- Support facilities that serve national, statewide or regional functions and function as an integrated transportation system,
- Be identified in appropriate local government capital improvements program(s) or long term concurrency management system(s) that are in compliance with state comprehensive plan requirements,
- Be consistent with the Strategic Intermodal System(SIS),
- Be in compliance with local corridor management policies, and
- Have commitment of local, regional or private matching funds.

Please transmit a Regional Prioritize List, with the Project Applications and any additional supporting information and documentation to your respective TRIP Coordinator.

This document has been developed at an overview level; please refer to the FDOT Office of Policy Planning website (<a href="http://www.dot.state.fl.us/planning/trip/">http://www.dot.state.fl.us/planning/trip/</a> or contact

L. Wetherell, FDOT District 4 TRIP Coordinator or Aiah Yassan, FDOT District 6 TRIP Coordinator, for detailed program requirements.

# **Project Location Map**

# Transportation Regional Incentive Program (TRIP) Project Application

TRIP was created to improve regionally significant transportation facilities in "regional transportation areas." State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed projects that benefit regional travel and commerce.

If selected for funding, the Florida Department of Transportation (FDOT) will pay for up to 50 percent of project/phase costs, or up to 50 percent of the non-federal share of project/phase costs for public transportation facility projects.

While there is no rigid application procedure, the Department has created this application to facilitate the assembly of pertinent project information by implementing agencies and Regional Transportation Areas related to candidate TRIP projects. The goal of this document is to provide a framework to project sponsors.

**Regional Transportation Area:** SEFTC ☐ or TCTC ☐ (Check one)

#### **Implementing Local Agency:**

Local Agency: St. Lucie Transportation Planning Organization/Florida Department of Transportation District 4

Address: 466 SW Port St. Lucie Boulevard, Suite 111, Port St. Lucie, Florida 34953

Project Manager: Peter Buchwald/Morteza Alian

Phone: (772) 462-1593

E-mail: buchwaldp@stlucieco.org

TCTC funding for this cycle:

| Total    | \$1,860,000 |  |  |
|----------|-------------|--|--|
| FY 19/20 | \$990,000   |  |  |
| FY 18/19 | \$360,000   |  |  |
| FY 17/18 | \$270,000   |  |  |
| FY 16/17 | \$240,000   |  |  |

Note: The funding is an estimated allocation from FDOT, and is subject to change. While the Department strives to statutorily divide the funding between the two regional transportation areas, programming will be subject to updating existing project cost estimates, the number of submitted eligible applications, and their associated cost estimates.

#### **Project Information:**

Project Name: St. Lucie Advanced Transportation Management System-Phase 1 (FM #435245-1)

County Location: St. Lucie

Facility (must be on the regional priority list of the respective regional transportation area): #12: U.S. 1 – Edwards Rd. to Midway Rd.

#17: U.S. 1 – IR County Line to Juanita Ave.

#34: Okeechobee Rd. – Turnpike to McNeil Rd. #36: Okeechobee Rd. – McNeil Rd. to Virginia #53: Edwards Rd. – Jenkins Rd. to 25th St. #58: U.S. 1 – Midway Rd. to Walton Rd.

Road number (if applicable): SR-5, SR-70

Project limits (include begin/end limits): U.S. 1 (SR-5) - Turnpike Feeder Road to Savannah Club Boulevard

Okeechobee Road (SR-70) – Kings Highway to U.S. 1 (SR-5) Edwards Road - Okeechobee Road (SR-70) to U.S. 1 (SR-5)

A location map with an aerial view is attached (Location\_Map.pdf)

Scope of work to be performed or capital equipment to be purchased, please include the typical section: (for transit projects include quantities and cost per item, i.e. bus, train, passenger shelters, benches etc.):

The project scope of work consists of the installation of fiber optic infrastructure, cameras, poles, and data collection devices to connect 56 intersections along three regional corridors.

A more detailed scope of work is attached. (Use attached Scope.doc)

Typical section is attached (*ATMS Master Plan Excerpt is attached*)

Explain how the project adds *capacity* to the regional transportation system.

The project adds capacity to the regional transportation system with the installation of capacity-maximizing, corridor management infrastructure, also known as Intelligent Transportation Systems (ITS), to address as many as six capacity needs identified in the Regionally Ranked Needs Project List.

Describe the project and what it will accomplish. Is the project consistent with:

- Long Range Transportation Plan
- Transit Development Plan
- Transportation Improvement Plan
- Local Comprehensive Plan(s)

Please provide the priorities and identify the page numbers for each below:

The local jurisdictions of St. Lucie County, the City of Port St. Lucie, and the City of Fort Pierce identify the corridors of the project as arterial corridors that are critical to facilitating the north-south and east-west movements of traffic throughout the St. Lucie TPO area. The project will address current and future traffic congestion along these corridors and reduce travel times and fuel consumption. The project is identified in the 2035 Regional Long Range Transportation Plan (page 8-3), the FY 2015/16 – FY 2019/20 Draft Tentative Work Program (page 9), the draft FY 2015/16 – FY 2019/20 Transportation Improvement Program (page C 1-21), and the St. Lucie TPO's 2014/15 List of Priority Projects. The project also is an integral phase of the Advanced Transportation Management System (ATMS) Master Plan for the St. Lucie TPO area that was completed by FDOT District 4 in 2013.

Describe how the project will improve regional mobility within the Regional Transportation Area: (For example, describe how this transit project facilitates the intermodal or multimodal movement of people and/or goods.)

The regional mobility within the Regional Transportation Area will be improved by the project addressing as many as six capacity needs within the most populous area of the regional transportation system including one of the primary north-south regional corridors (U.S. Highway 1/SR-5) and one of the primary east-west regional corridors (Okeechobee Road/SR-70) connecting U.S. Highway 1, Florida's Turnpike, and I-95.

Illustrate how the project reflects the statutory (339.2817) guidelines under which the District will prioritize and select candidate projects for funding:

- Increases capacity
- Provide connectivity to the SIS
- Support economic development and goods movement in rural areas of opportunity
- Are subject to local ordinances that establish corridor management techniques
- Improve connectivity between military installations and the Strategic Highway Network (STRAHNET) or the Strategic Rail Corridor Network (STRACNET)

The comprehensive and detailed ATMS Master Plan completed by FDOT District 4 illustrates the need for the project and how it will address capacity by improving the efficiency of the priority corridors that were identified based on the current traffic conditions, existing land-use, roadway classification, access management, and future development. These guidelines for corridor prioritization support economic development, expand access to regional employment centers, businesses, and attractions, and enhance freight opportunities. In addition, the installation of the corridor management infrastructure strengthens the connectivity of the region to the SIS and U.S. Highway 1 which contributes to the overall growth and sustainability of the region.

How will TRIP funding accelerate the project's implementation?

FDOT District 4 completed the ATMS Master Plan for the St. Lucie TPO area on behalf of and in cooperation with the local jurisdictions of the St. Lucie TPO area. The design of Phase I of the ATMS Master Plan subsequently has been programmed in the FDOT District 4 Work Program. The TRIP funding will significantly accelerate the project's implementation by enabling the construction of Phase I, which is currently unfunded, to be programmed in the District's Work Program.

Provide detailed project cost estimates for each phase requested (required). Construction estimates shall be broken down to FDOT typical pay items to allow for verification of eligible project costs. Estimates are to be prepared and signed by a Professional Engineer from the Local Agency's Engineering office. Each phase requested (i.e. design, right-of-way, construction, CEI) requires a 50% local agency match.

For transit projects include a budget in accordance with FTA guidance for the Section 5307 Program consistent with FTA C 9030.1.

A detailed cost estimate is attached (ATMS Master Plan Excerpt is attached)

Describe source of matching funds per phase requested and any restrictions on availability. Each phase requested (i.e. design, right-of-way, construction, CEI) requires at least a 50% local agency match. Each phase requested shall be separated by at least 2 fiscal years (the Department's fiscal year runs from July to June).

#### The matching funds are projected SU funds that are detailed as follows:

| Phases requested:                    | FY requested        | FDOT Amount requested | Local Match      |
|--------------------------------------|---------------------|-----------------------|------------------|
| Design Right of Way Construction CEI | FY 16/17 – FY 19/20 | \$1,620,000           | \$1,666,221 (SU) |
|                                      |                     |                       |                  |

#### **Project Qualification Information:**

• Will this project affect any historic property that is included or eligible for inclusion in the National Register of Historic Places? If so, has the Division of Historical Resources been given a chance to comment on the project?

#### NO

Will this project involve the demolition or substantial alteration of a historic property in a way which adversely affects the character, form, integrity, or other qualities which contribute to the historical, architectural, or archaeological value of the property? If so, timely steps must be taken to determine that no feasible and prudent alternative to demolition or substantial alteration exists, and, where no such alternative exists, timely steps must be taken to mitigate the adverse effects or to undertake an appropriate archaeological salvage excavation or other recovery action to document the property as it existed prior to demolition or alteration.

#### NO

Please note. If federal funding or a federal permit will be involved, then the requirements of the National Historic Preservation Act of 1966 (as amended) and 36 Code of Federal Regulations Part 800 apply.

The Department's process for complying with federal and state historic preservation requirements is found in the Project Development and Environment Manual; Part 2, Chapter 12 (Archeological and Historical Resources). If the local agency does not have its own process, we recommend they use the Department's.

• Describe the project's existing Right-of-Way ownerships. This description shall identify when the Right-of-Way was acquired and how ownership is documented (i.e. plats, deeds, prescriptions, certified surveys, easements).

The right-of-way is owned by public entities as identified in the ATMS Master Plan.

Please also provide, in addition to this application, location map, scope, typical section, and cost estimate requested above, the following information:

**Attachment A**: Documentation showing that the facility to be improved has been identified by the Regional Transportation Area as part of an integrated regionally significant transportation system. (attached)

Attachment B: The prioritized list of regionally significant projects developed by the Regional Transportation Area. (attached)

Attachment C: Project support data, as appropriate. (refer to ATMS Master Plan)

Attachment D: Provide implementation schedules for all appropriate phases. (FDOT Work Program excerpt is attached)

**Attachment E:** Document that the candidate improvement appears in the capital improvement schedule of the local comprehensive plan. (*not applicable*)

**Attachment F:** Document that level-of-service standards for the facility to be improved have been adopted by the local government with jurisdiction and are consistent with the level-of-service standards adopted by FDOT. (attached)

Attachment G: Document that the candidate project meets the following TRIP statutory eligibility requirements. (attached)

- Support facilities that serve national, statewide or regional functions and function as an integrated transportation system,
- Be identified in appropriate local government capital improvements program(s) or long term concurrency management system(s) that are in compliance with state comprehensive plan requirements,
- Be consistent with the Strategic Intermodal System(SIS),
- Be in compliance with local corridor management policies, and
- Have commitment of local, regional or private matching funds.

Please transmit a Regional Prioritized List, with the Project Applications and any additional supporting information and documentation to your respective TRIP Coordinator.

This document has been developed at an overview level; please refer to the FDOT Office of Policy Planning website (<a href="http://www.dot.state.fl.us/planning/trip/">http://www.dot.state.fl.us/planning/trip/</a> or contact

L. Wetherell, FDOT District 4 TRIP Coordinator or Aiah Yassan, FDOT District 6 TRIP Coordinator, for detailed program requirements.

Transportation for America Flyer

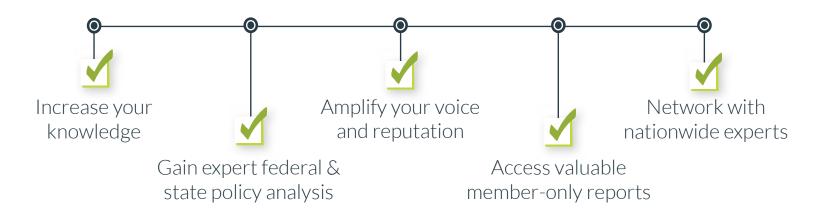

### **JOIN AS A MEMBER**

Transportation for America (T4A) is the leading national organization committed to empowering local business, civic and elected leaders to build the transportation projects that increase economic prosperity and competitiveness.

Transportation for America is on the leading edge of what's happening in the world of transportation planning and policy, and membership in T4America will amplify your knowledge and influence. On issues ranging from federal and state transportation legislation to trending practices in planning and executing transportation projects, members have special access to the insights of our staff and network of experts. Additionally, membership connects you with a diverse group of like-minded leaders who are planning, funding and building smarter transportation networks in their communities.

# The benefits

# T4America is:

# The benefits of membership

**Timely insight and information on federal and state policy.** From the White House to the state house, members receive insightful information and analysis of pressing federal and state transportation policy issues.

**Access to members-only resources.** Members have access to our extensive information clearinghouse to support your advocacy campaigns and strategies, including early access to reports and other resources before public release.

**Professional development and networking with diverse communities.** Participation in a premier network of officials, practitioners, civic leaders, business professionals, scholars and others dedicated to reforming how we spend transportation dollars at the federal, state and local levels.

**Publicity.** Amplify your reach by publicizing and celebrating your achievements through our newsletter, blog, social media properties and other communications. We also create joint report release opportunities among members to connect national transportation issues with your local examples.

**Exclusive discounts on our products and events.** Take advantage of special discount offers on a variety of products and services, including reduced registration fees at T4A-sponsored events. Members may also access special offers on a variety of products and services from our partners.

**Opportunities to collaborate.** We engage in partnerships and collaborations with our members in order to continually advance our leadership network. We cross-promote member events and resources that advance our mission and offer opportunities to participate in and develop programs.
