

# Port of Fort Pierce Connector Feasibility Study

## Public Workshop

Attend this upcoming public meeting to learn more about a potential shared-use overpass or underpass in the Port of Fort Pierce area!

### WHY

The St. Lucie TPO is conducting an overpass feasibility study for a critical gap on the SUN Trail network in St. Lucie County near the Port of Fort Pierce area. The potential SUN Trail overpass or underpass is intended to provide a connection across the Florida East Coast (FEC) Railroad corridor between the Port of Fort Pierce area and the US-1 corridor. Join us for a discussion of the potential connector alignments and provide feedback that helps us identify strategies to better serve the bicycle and pedestrian needs within the study area.

### WHEN & WHERE

**Date:** Tuesday, February 20, 2024

**Time:** 5:00 p.m - 7:00 p.m.

**Meeting Location:** River Walk Center, 600 N Indian River Drive, Fort Pierce, FL 34950

\*no pre-registration required
