

Traffic Count Column Header Descriptions

Sample

1	2	3	4	5	6	7	8	9	10	11	12
Interstate 95	Freeways - Group 2	1905	N. of Orange Ave	4	52,000	43,900	24-Mar-04	0	43,900	8,100	C

- 1. Roadway Name** Name of the roadway on which the count station is located.
- 2. Roadway Classification** The Florida Department of Transportation (FDOT) Level of Service (LOS) Road Group.
- 3. Count Station Number** Numbers assigned to traffic count station (4 digits = FDOT; 3 digits = St. Lucie County).
- 4. Count Station Location** General Location of traffic count station on roadway.
- 5. Lanes** Total number of roadway lanes in both directions.
- 6. LOS Capacity** Roadway capacity per Florida Department of Transportation (FDOT) standards. Each roadway classification has a numerical threshold derived from the FDOT Level of Service tables (1995 FDOT LOS Manual, Table 5-1, Generalized Peak Hour Directional Volumes for Florida's Urbanized Areas).
- 7. AADT** Average Annual Daily Traffic. The average of the four seasonally-adjusted traffic counts. Seasonal adjustment factors are derived from FDOT. The adjusted counts are rounded to the next highest hundred. Traffic counts which are more than two years old are included in the averaging process.
- 8. Date** Date of last traffic count.
- 9. Committed Trips** Traffic anticipated to be added to the roadway due to approved development.
- 10. Total Trips** The sum of AADT and Committed Trips.
- 11. Remaining Capacity** Available roadway capacity. The Traffic Counts Report uses the St. Lucie County adopted LOS standard of "C" for all roadways, except for I-95 (LOS D). Number in parenthesis () indicate number of trips over LOS C.
- 12. LOS** Current level of service on the roadway based on St. Lucie County Comprehensive Plan adopted standards. Level of Service (LOS) is the grade assigned to roadways (A to F) to classify operating conditions.
